Middle-class families deserve a break.

[View this email in your browser](#)

I want you to be one of the first to know: **House Republicans introduced legislation today that will cut your taxes and make things so simple you can do your taxes on a form the size of a postcard.** This plan is for the middle-class families in this country who deserve a break. It is for the families out there living paycheck to paycheck, who just keep getting squeezed.

The *Tax Cuts and Jobs Act* will deliver real relief for people in the middle, and people striving to get there. **With this plan, the typical working family of four will see a tax cut of**

\$1,182.

That **\$1,182 more** covers about a year's worth of gas for your car or even your family's iPhone bill for the year—depending on how much data your kids use of course. That **\$1,182 more** can help you pay down debt faster, or start a home

renovation sooner. It is **\$1,182 more** to put away for college, retirement, or just a rainy day.

We are making pro-growth reforms so that America can compete with the rest of the world, but also so that **families like yours can see more take-home pay.**

P.S. [Learn more about the legislation here](#), and tell us what you could do with **\$1,182 more** on [Facebook](#) or [Twitter](#).

The average family of 4 will save

\$1,182

per year on their taxes
