

## **THE REUNION OF ROMANIA**

The reunification of Romania was possible in 1990, 1991. It was a coordinate major of the Romanian Revolution. Who opposed it? Who didn't get involved, though did you have to The President of Romania was Mr. Ion Iliescu, and the Prime Minister, Mr. Petre Roman. Traitors live among us. Knowing what happened, we will be more united in thought and feeling. The territorial reunification of Romania is inevitable! The Ribbentrop-Molotov Pact, through which a good part of Romania is incorporated in Ukraine, falls into the category of the worst crimes against humanity. The 1996 Treaty between Romania and Ukraine, it is deeply inhuman, its perpetrators being complicit in the murder of humanity, with all those guilty of initiating, drafting, initialing, applying and maintaining the consequences of this pact, themselves becoming co-authors of maintaining these consequences. It is about Mr. Emil Constantinescu, on then the President of Romania, by Mr. Adrian Severin, then Minister of external, by Mrs. Zoe Petre, then the head of the presidential advisers s. a. Did you know that in 1990, the Russian Federation agreed to institutionalize Romanian language

education, throughout the Russian Federation, for the descendants deportees and for the other Romanians, who, forced by circumstances, live away from birthplaces? In Romania, minorities are protected, they have education in their language, our Romanians, from abroad, do not. Then the president of Romania was Mr. Ion Iliescu, and the prime minister, Mr. Petre Romanian. The unification of the Romanians in a single state was done by themselves, the empires being put on the accomplished fact. The KGB hats in Romania don't even have one dared such a thing towards the Moscow imperialists, both in their conversations with the representatives of the USSR Embassy in Romania, as well as in Chisinau and Moscow. On the contrary, they infiltrated, annexed and hijacked the Flower Bridge from a new Alba-Iulia, given that Romanians from all parts of Romania they had been notified and had voluntarily come from all over the country with a rush unstoppable, in Bessarabia. A real Plebiscite: Alba-Iulia 1990. The reunification of Romania is inevitable!

**The annexation of the Romanian Revolution and the Flower Bridge, by the housewives Moscow**

**December 22, 1989**

On December 22, I was heading to Television, when, in nearby, I was met by Liviu Petrina and Aurel Dragoş Munteanu. I answer that I will enter the building. They asked me if I could take them too to them. I was in a lot of young people. In front of us a few groups of military. There were some difficulties in entering the building. Yes, here you go. I got it open a road, a corridor. Surprised by the way I entered, Liviu Petrina and today he still asks me why I was made a place in the crowd, and at the entrance, too as. After we entered, we broke up. I went up to one of the floors and I entered a situation analysis room on the ground in the capital. And by command. That's how I perceived it. In the hallway, by the door, Stark- guard room, a bit restrictive, but he took a step back, gesturing to me that he wasn't oppose. I entered. Several people were leaning on some maps, civilians and military ... Also on this day I wrote, at the proposal of Liviu Petrina, an article for the Renaissance.

**The night of December 22 to 23**

On the night of December 22, Liviu Petrina, Laura Sigarteu, Iftene Pop,

Ioan Alexandru, Ulvina Alexandru and Victor Negară, at the initiative of Liviu Petrina, they founded the National Peasant Christian Party and wrote the proclamation of this party. It would be time for this group to make confessions. Its members showed courage and political sense. On the night of December 22-23, I was with Liviu Petrina, at the invitation to him, at a printing house, where the newspaper *Renașterea*, *Jurnalul* was printed. The National Organizing Committee of the National Peasant Christian Party. Liviu Petrina had already taken the materials for publication. In the first no. are included the article *Resurrection*, by M. Eminescu and the poetry of the *Plowman*, by Octavian Goga and materials signed by Ioan Alexandru, Liviu Petrina, Iftene Pop, priest prof. dr. Constantin Galeriu, Gelu Bejenaru and Gheorghe Gavrilă Copil. The Romanian Revolution was a huge deployment of political forces. A set up a party and publish a political newspaper, without using big words, it means political maturity. The Opposition gathered around this party, known fact, which no one denied, easy to prove, to remember. In the first no. it is written "The National Peasant Christian Party was born in the fire sacrifices for justice on December 22nd. He is a Christian Democratic Party. "The PNT politicians, the survivors of the communist prisons, came, after a few days, at PCNT, which was already active. In no. 2 of the *Renaissance* (Justice had not yet reappeared, so that the *Renaissance* became the organ of press of the PNT) is specified, in a communiqué „In the joint meeting extraordinary meeting which took place on 26 December 1989 in Bucharest, ascertaining the identity of doctrine and program between the Christian Party National Peasant, the governing bodies decided as the name the party to be the "National Peasant-Christian Democratic Party". That's how it ended PNT, party of the Romanian Revolution, or in other words, participant in the Revolution Romanian ...

### **December 23**

General Ștefan Gușe reacted publicly, opposing the intervention of the Soviet army in Romania. Regardless of the controversial personality of the general, in connection with the development of the Romanian Revolution in Timișoara, with the tragedies that happened there, history will record the truth that the general intervention of the general had a great weight for Romania. We still wonder today why "sound" names from then, from time. During the revolution, they did not immediately form a joint body with General Ștefan Gușe. All I was left with only one answer, because the request for military support from the Moscow part was made by the "chief", that is, by Mr. Ion Iliescu. At the USSR Embassy (!), in a telephone conversation with Moscow. Those who I know, out of fear, I'm still silent today. The televised intervention of General Ștefan Gușe was received accurately, as a counter to this request

and as a warning given to Moscow. To the public reaction of gender. Stefan Gușe, Moscow was silent. This silence it made me feel December 23rd as an extremely hard day for the Romanian Revolution. On December 23, I addressed Moscow, in view of the worst threat looming over Romania- foreign military invasion. Message on behalf of the National Action Committee Bucharest-Chisinau Free Pass. On transmission relays, in conditions on which I will evoke, CNABCTR was confused with the National Committee of PCNT.

### **24December**

Moscow's response to our message was that it would not send troops military in Romania. But first, about conveying the message. In conditions dramatic. It's time to talk about a heroine of the Revolution. The transmission The message took place intermittently over several hours. After another attempt, failed. Around the building (PTTR), to take control of it, he was firing. Bullets also entered the building, but in this regard, confessions are to others. He is silent. With all the fear and despair through which the young woman I was in contact with, alone in the building, was passing, she understood exactly the importance of our message, succeeding, from fragmentary transmissions, non-building, to connect me with Chisinau, with the Popular Front from Moldova (God is great!), With interruptions and replays, but FPM had succeeded receiving the message, which he immediately forwarded to Congress People's Deputies of the USSR, Mr. Mikhail Gorbachev. Transmitter ours was exposed. He was walking in a narrow path, between life and death. Did not abdicated from duty, to take refuge in places in the larger building safety. He returned several times to the place of maximum exposure, only by here he had a chance to succeed. He had to succeed before he could damage to the facilities, or occupation of the post office. In this young woman, the spirit sacrifice of the Romanian Revolution was alive! Those who tried and contributed when the Romanian Revolution was annexed, unfortunately they did not realize what a pity great they committed. The message got to where it needed to be. Mikhail Gorbachev, in a Congress break (At which the Molotov-Ribbentrop Pact was annulled), to him the Romanian Bessarabian deputies and informs them that he has arrived a message from Bucharest. He had it, half bent on the back of his palm, half in the palm of your hand. He showed them half of his palm The arrival of the USSR army in Romania it is inopportune ... -I inform you that we will not send troops to Romania.

The joy of the Romanian deputies was enormous. The threat of intervention the Soviet military had pressed them all. Our brave brothers from Bessarabia they had acted. The Democratic Movement (which has been around since May 1989 FPM) informed us of the warning given to Moscow, and namely that the Romanians from the Republic of Moldova will live alive in the way of the tanks

Soviets, if they go to Romania. If the Romanian Revolution has need help, if Romania needs help, if Bucharest, the capital of all Romanians will call them, then they, the Bessarabian Romanians, will jump to the aid of the Motherland! By no means the Soviet army! The young people who fell during the Romanian Revolution, the heroine who transmitted the message, the brothers from Bessarabia ... It is time to highlight another aspect of Mr. Michael's conversation Gorbachev with the Romanian Bessarabian deputies. Mikhail Gorbachev, the module consciously, through cunning, he has grieved the Romanian people to this day. He contorted and complicated relations between Romania, on the one hand, and on the other being, today, the western Soviet empire (Ukraine) and Russia. The part of the page in his palm had shown it. The bent one, on the back of the palm, no. Exactly in the palm of your hand he had kept the fragment with our opposition to military intervention" ... This Revolution is being made by us. We can take her alone to the end! The arrival of Moscow's troops would be all and sundry inopportune ... "On the back of the palm" ".... The people of the German R. D. and R. F. German travels in both directions, absolutely free, without a passport, without visas, no customs duties ... Moscow can really offer democracy our most precious but ... Romania and Moldovan RSS ... free movement of citizens of the two states. The effect on the whole people Romanian would be extraordinary. The heart of the European house would beat here, on the Tisza to the eastern bank of the Dniester. God help us! "Good God had also prepared the framework for the smooth Reunification of Romania. Right there that congress annuls the Molotov-Ribbentrop Pact. And the deputies of Ukraine, all voted to annul the treaty, to declare it null and void initiation. Ukraine, like the Republic of Moldova, was not yet an independent state. They were part of the USSR. Ukraine was looking for allies to achieve its ideal supreme, of freedom, of independence. The reunification of Germany was in full swing deployment. In Chisinau, Romanian deputies saw the entire text. Have stated that if Mikhail Gorbachev had not hidden the other side of the message, given the enormous prestige of the Romanian Revolution, still in its infancy full development and that the Congress annulled a Pact that had affected territorial and Romania, would have had the opportunity to bring, in front of all deputies and guests, and the issue of the Reunification of Romania. What did the comrades do? Who had risen to the forefront of the Romanian Revolution? Poor people ... What a heavy burden they have left on the shoulders of the Romanian people! In the confrontation with Mikhail Gorbachev we had managed to earn a point. The invasion of Romania no longer took place. Mikhail Gorbachev was waiting for the second move, determined not to give up. We, determined to win! Today, those who

deny the chances of Romania's Reunification, since 1989 and continuing into the 1990s and 1991s, they have been absent from duty.

**Mikhail Gorbachev - Mr. Petru Lucinschi,  
who is Gheorghe Gavrilă Copil?**

It turns out that the message had a special effect on Mikhail Gorbachev and from the fact that although the head of a state with branched secret services throughout world and with a participation even during the Romanian Revolution, for planting in power, in Bucharest, of the Romanian KGB members, he did not know what forces were behind it this message. The scale of the Revolution had exceeded all calculation. Petru Lucinschi

-I do not know.

The Romanian State Security Officers, after taking power, in Romania was martyred by the people of the communist empire. He pierced her tongue and lifted her up like a gallows. And the officers from the Romanian army, from the special services, crucified. I saw one of them the traces of the nails ... and today I see the Romanian people crucified, like a cross, on a riverbed Prut! From the spirit of these martyrs we derive our capacity to act in the issue of the Reunification of Romania. To act uninterrupted, until the fulfillment of our holy ideals, regardless of difficulties and some adverse circumstances. Moscow, unaware of our forces - such forces can never be defeated, they cannot be fully identified – a reacted wisely. Mikhail Gorbachev understood that it was about force a people who were ready to act for freedom and for The reunification of the country. Let no one deceive himself, no empire! Romanians will reunite territorial country!

**A delegation from Bessarabia**

A few days after receiving the message from Mikhail Gorbachev, immediately after the publication of the entire text in the Chisinau press, they arrived in Bucharest, at the PNTC headquarters, Leonida Lari, Grigore Vieru and Nicolae Dabija, in especially, as they confessed, to know the person who managed to causes Mikhail Gorbachev to declare that he will not send troops to Romania, and at the same time opened the way for the Reunification of Romania, in full development of the Romanian Revolution, but it was clear that they had come to a party from who hoped for the fulfillment of holy national ideals. For them, Romania, then, was represented by PNTCD, proof that they arrived at PNTCD. Then, at the first meeting, with deep political connotations, among the Romanians on on both banks of the Prut, I asked the three Bessarabian Romanians in publicly, if they want to run for the Romanian Parliament. Surprised to their depths wounded by the Soviet occupier, they shuddered, illuminating in the face, in an unspoken answer, but received as positive, being applauded of those present.

### **With Alexandru Paleologu**

One day before Christmas, I met him in the crowd he surrounded the Television, Mr. Alexandru Paleologu, with whom we met removed at a leisurely pace, at his request, as the crowd bothered (to use a gentle word), confession that upset me and sad. I knew him before the Revolution. Paleologu is a good man. He has a warm heart, he intuitively understands people well, he trusts them. Cultivate elegant relationships, offering the first of the nobility that should characterize any person. It was a pleasure to meet him again and I preferred to remember, now, in writing those minutes, with all their annoyance.

### **Ion Iliescu**

On December 26, we addressed, in an open letter, To National Salvation Front: "People from R. F. Germany and R. D. Germany circulates in both directions, absolutely free, without a passport, without visas, without customs duties ... The SNSF Council came in contact with the RSS Government Moldovans, in order to get such a law to be legislated, in time?" He never answered us. In the issue of the Reunification of Romania we do not know an answer, except the one against Reunification, given in a year, Mr. Mikhail Gorbachev, when he will sign the Treaty with the USSR, acknowledging the borders of the USSR.

### **We, determined to win!**

Mr. Mikhail Gorbachev, Congress of People's Deputies of USSR - open letter of December 30, 1989. For edification, a quote "A solution has been found to Europe's worst humanitarian problem Hello ... the Germans are moving in both directions, absolutely free, without visas, without taxes. Romania has a German R. D. of its own. It's about RSS Moldovan ... It is known that Romanians in northern Bucovina and throughout Bessarabia suffered the most terrible misfortunes that can befall it deportation, imprisonment, prohibition of cultivation in one's own language, settlement of settlers on its land, etc ... What is valid for Germans, in no case can be denied to another people. Even without the case Germany, the Romanian people have the right to this moral reparation ... Now,

when the land of Romania is abundantly watered by the blood of the martyrs To the revolution ... we discovered, to our amazement, another dictatorship, a the old Stalinist regime in the Soviet Union, a dictatorship that may it acts painfully on the Romanian people. We are no longer able to we live under the chains of no dictatorship. The proverbial patience of the Romanians took the end. Hundreds of thousands of Romanians are ready to go to the Prut, with flowers, in greeting our brothers east of the Prut. No internal force, no voice and no foreign force can stop us ... no one is allowed to it still torments this people. It is known that our revolt began in Chisinau, a continued in Timișoara, a real blood turntable, from where covered the whole country, bursting,

unstoppable, like a volcano ... We think the governments of Romania and the Moldovan SSR can honor this request of of the Romanian people until May 9, the day of the proclamation of Independence state of Romania. " For the second time, Moscow is responding positively to our requests Moscow sends Mr. Eduard Sevardnadze to Romania, the Minister of Foreign Affairs of the USSR, who arrives in Bucharest on January 6, 1990, where he says the answer from the leadership, USSR "We discussed this aspect and at the highest level will begin a series of conversations in connection with the border regime, so that the people of Romania and RSS Moldovan woman to be able to have contacts without difficulties. "Only Romanian state officials ignored the historic train of Reunification.

### **Following Moscow's response, demonstrations were suspended**

Mr. Petru Lucinschi, First Secretary of the CC of the PC from RSS Moldova - open letter from January 14, 1990 „Afte the reply received from Moscow by Mr Eduard Sevardnadze, we gave up demonstrations in support of free passage over the Prut. No more it is necessary to emphasize that such demonstrations, once started, can no longer be stopped ... Moldovans between the Prut and the Carpathians are one step away from taking to the streets. The Transylvanians as well. The national march with flowers, to meet our brothers from across the Prut, we will not be able to stop it. And we don't even want to. " companions dependents of Moscow will be relieved. Any postponed activity is it may not be possible.

### **Better dead than a traitor!**

The KGB Securitates from the Securitate, from the Communist Government, from the PCR, from cultural institutions, from Radio and Television, etc., rubbed their hands a satisfaction. Well, if the USSR isn't bothered, they have a chance stabilize in power and still under the insurance of Moscow! That such forces occult acts then it is known, but still silent today. But shut up and the detainees policies with many years in prison. Only a few have made true confessions and only they no longer have their souls behind bars today! Comrades in civilian clothes from May the old investigation and torture teams, or those from the years before Revolution, surveillance and warning, that in this country no one move, everything is under control, they left deeper traces than is thought. And the signatory of these lines had such an officer, who, according to those twenty years before the Revolution, it came his way. And not to I think it's a simple meaningless incident, it was posted right in the lobby of the block in which I live 4-5 years after the revolution! God what madness, some Romanians followed other Romanians until the Revolution, instead of them supervise the KGB members and their descendants, and after the Revolution some, in indicative reprofiling, from sadea communists, draped in

democrats. Did not longed to tear his clothes and put ashes on his head, to be believed. Only they are from the great group of exes who acted against Opposition, with a brutality indistinguishable from the times when the flower of intellectuality Romanian was closed and destroyed. The opposition was made up of a few survivors. So far, the opposition has been shouting that the comrades are thinning the files I'm extracting documents that would prove the oppressors. Now that they have come to power, would they be thinned by the statements of the oppressed ?! it he knows that former political prisoners, under physical and mental terror, have been coerced to give all kinds of statements, with serious consequences for other people. Some they became informants. Not confessing the truth, they are still imprisoned today. That is why they oppose the files becoming a simple public library. What the pathetic! But I know that there were good Romanians before the Revolution and in the structures of the authoritarian state. I know them, I know some good Romanians from the ranks of former political prisoners. The repressive force, since its establishment communism in Romania, until the Revolution, left deep traces in some and in others. We do not absolutize, we do not generalize. We have sad data in connection with the inability to hire, after the Revolution, for Reunification. The country, among both categories, in favorable situations, ready created. Fear of the USSR functioned compared to those in the former communist state structures, with KGB networks in these structures, and for former political detainees, in following the beatings they received, behind bars, from the old KGB networks, by to the parents of those in the new networks. The issue of files is a problem which, if not resolved by full access to them, will leave a shadow stain in the soul of this wonderful people. Only writers, by grace given by the Good Lord, they will plunge into the unseen depths and will restituted in light what yesterday's Opposition, now the Power, is trying to cover up! After they stopped accessing files, they now limit it. Why did I write these lines? Because in this context we had to act. In the these conditions we had to resume the mass activity in the problem The reunification of Romania and to carry out our activity in the ten years, from revolution to this day. Better dead than a traitor. Betrayal means and not engaging in such activities.

### **The Prut River, of our tears, to cover it with flowers**

Bucharest-Chisinau National Action Committee, on the 21st January 1990 is transformed into the Bucharest-Chisinau Cultural Society, which obtains the status of legal person on February 14. Noting it is known that the officials from Bucharest are absent from the Reunification process Romania, with the encouragement of Heaven, good and ancestors, descended to organizing one of the most prestigious national, reunifying actions of the country, the Prut of our tears to cover it with flowers, thus keeping, at day, the chances of

reunification. Contacts have been established with trusted people from all over the territory of Romania. To the east of the Prut, by the organization of the Prut action of tears. The People's Front of Moldova took care of us. FPM was also part of Opposition. The first call, The Prut of Our Tears ..., appeared on the 15th February. And now, just a few confessions from the preparations for the transition to thrombus of over a million Romanians across the Prut border. Of the most little known, or not at all.

### **The Romanian army had noticed the great historical chance of the Reunification of Romania**

I must admit that the Romanian army officers reacted with dignity, without hesitation, to the Prut march of our tears to him cover with flowers. There is no doubt that at the top, the FSN is not controlled in the entire Romanian army. The battle to remove the KGB general from the head of the army, led by the democratic forces within the army (CADA), he had achieved his goal. It has been removed. Together with your border officers of the Romanian army, we established all the points for crossing the border, where, the Romanian border guards took all the necessary measures! If from the height of Romania's political leadership, it was shaking and shaking they watched with horror the preparations and the inevitable crossing of this frontier, drawn by the Soviets inside Romania, the Romanian border army was placed immediately, with brotherhood and professionalism, at the disposal of the national will. And the border army is part of a unitary whole, the Romanian Army. I had meetings with senior officers of the Romanian Army, in border towns, meetings at military units, then in public, for the good organization of action along the entire border, where the USSR army was also deployed. To the public meeting in Iasi, on behalf of the Popular Front of Moldova, have Mr. Iurie Roşca and Mr. Sergiu Burcă participated. Approval was also obtained Metropolitan Church of Moldavia and Suceava, for officiating the divine service on the banks of the Prut. So the Romanian Orthodox Church also responded positively, sacrificial, at our request. There is no doubt that the Metropolitan Church of Moldova and Suceava had notified the Patriarchate of our requests. The Secretariat of the Patriarchate, through the priests who were with us, he had become aware of these requests, bringing them to the attention of the Patriarch.

### **The Soviet army will react against those which will violate the border of the USSR**

There were also extremely critical moments. Meeting the semantics these lines with commanders of the USSR Army, meeting agreed between parties, took place on acceptable terms, but the harsh reaction of the gentleman Mikhail Gorbachev cannot be overlooked. The head of the USSR, through the agencies The press reports to the world that the USSR Army will

not allow anyone to violate the border. We were not impressed. We are not crossing the border of a state foreigner, but I was crossing a bank of a river inside Romania, on the other shore! The passage of a million Romanians across the Prut was a storm inevitable.

### **Open letters addressed to the heads of state bordering the Prut**

We addressed Mr. Petru Lucinschi, Mr. Vladimir Ivaşco (Ukraine) and Mr. Ion Iliescu, informing them that we are crossing the Prut. We quote from the letter open addressed to Mr. Petru Lucinschi „On May 6 ... about one million Romanians will walk with flowers the wound caused by the border imposed in 1940, when ... was finally annexed by the USSR, Bessarabia, then in same year and in the same context, northern Bucovina ... Sons of the Romanian people of a on either side of the border, have not seen each other for decades, or do not know each other not at all...".

### **Did we also address the USSR?**

Not now. We leave the comments to political scientists. Not to be create any doubts, we specify that all the documents to which we we refer to these notes were published in the press at the time respectively (see end of this book).

### **German Democratic Republic of Romania**

The call of the Prut of our tears to cover him with flowers, had appeared in many of the newspapers on the two banks of the Prut, sometimes by resumption, including, up to date, in the last no. of the publication of the Popular Front of Moldova before crossing the Prut. We quote from this call, signed by Gheorghe Gavril Copil, president of the Bucharest-Chisinau Cultural Society "RepublicMoldovan Socialist Soviet Union, northern Bukovina and southern counties Bessarabia is the German Democratic Republic of Romania. "

### **Mikhail Gorbachev had given up the Soviet Army's reaction. Opinion**

#### **The public had not found out. We didn't know either. Who knew?**

The Romanians, the Romanian Revolution, had won for the third time in front of MoscowThe whole country spirit of Alba Iulia hovered over the waters.

We leave the answer to the question in this subtitle to identify it readers.

### **It's now. The "organizer" of the Flower Bridge appears**

One of these days, Mr. Victor Crăciun, the first the vice-president of the Cultural League for the Unity of Romanians Everywhere, as if by chance, on the street. He worked at Radiotelevision in Bucharest.His Majesty expresses his desire to join the Prut of Tears action to cover it with flowers. Our action was open to all Romanians. He expressed his desire to send delegates from the League to the centers for organizing the crossing of the Prut. I accepted. Thus, in Iasi, prof. Mihai Avădanei, president of the Iaşi Branch of the Bucharest

Cultural Society-Chisinau, the person in charge of this organizing center, received him even the son of Mr. Victor Crăciun. It was reduced to one man, the participation of the League in the Organization of the Flower Bridge! Of course, readers are he asks how I was misled by this man. Simple. Not really I had seen it for many years. He had been my lecturer, or assistant at Al. I. Cuza, from Iasi. Activate at group level. He abused the sacred relationship between teachers and students. How do I know what was in his soul??

### **Gheorghe Gavrilă Copil is a dangerous man**

Prof. Victor Crăciun asked me where I will be on May 6, the day of the crossing Prutului. I replied that somewhere there would be the highest share of risk, at Ungheni. Trains full of brave Romanians were to arrive in Iasi from various parts of the country. Then, from Iași, to Ungheni. It was my sea error. It was known where I would be. Now I think so. On May 6, in Iasi, I am warned, in a confidential manner, that it was from Bucharest, from above transmitted information to the servants of the KGB Power in Iasi, who now they were activated up to the level of ordinary informants Gheorghe Gavrilă Copil is an extremely dangerous man. But about something like that, another time ...

### **Ion Pogorilovschi**

Prof. Victor Crăciun expressed his desire to be among the delegates from Albita. I didn't mind. He asked me who was on the side Bucharest-Chisinau Cultural Society. I replied that he was a good man sense, a distinguished man, an exceptional researcher, a man whom the Soviets had destroyed the family, the father remaining on the shore annexed by the USSR, and he, the mother and the sisters on the other side and that she couldn't see her father and sister, because he tried, he went to jail ... Who? Ion . Victor Crăciun has turned red like a cancer and we can no longer bear his tension inside dropped a no, then, softening, he said, stammering, that it would be good to be someone else. Then I had to break up with this man. Press time. He asked me if he could go to Chisinau ... Of course.

### **Popular Front of Moldova**

In Chisinau we had to appear in a special edition of the FPM newspaper, with a text in a joint drafting, to which FPM had every right, according to its contribution to this activity, for half a year, from the very time of the Revolution Romanian. And with the latest technical data, in establishing which FPM worked with at the very beginning, among which, the localities of crossing the Prut, etc. (taken over in the Call "worked" by Victor Crăciun). This last appeal was reportedly signed in order, by FPM, by the Bucharest-Chisinau Cultural Society, by the associations affiliated to the Front and, lastly, the

Cultural League for the Unity of Romanians of Everywhere, which, frankly, contributed nothing to this activity. And yet its first vice president, Victor Crăciun, deployed a activity, in Chisinau, with a professionalism that shakes us to this day, o fraudulent activity. This last call led by FPM we would be also reproduced in the Bucharest press (where appeared the one "worked" by Victor Crăciun). The reunification of Romania is a political act. It cannot beachieved without a political party, and then the FPM was the only unionist political party in Republic of Moldova and Romania. He still did not have a parliamentary majority, but it was the strongest opposition party in Chisinau. All the more obvious and even more serious is the anti-Romanian work set up and completed by KGB forces in Bucharest, led by their Kremlin leaders.

### **Victor Crăciun — Ion Iliescu**

In great haste, Mr. Victor Crăciun is heading to Cotroceni, to Mr. Ion Iliescu to tell him. What to tell him? That he managed to infiltrate the activity of the Bucharest-Chisinau Cultural Society. Mr Victor Crăciun acted in accordance with the instructions received from Mr. Ion Iliescu?

Mr Victor Crăciun acted in accordance with the instructions received from USSR Embassy? Mr. Victor Crăciun acted according to the instructions of some officers with who worked together? Or at everyone's directions? Sure is any officer the Soviet KGB secret service would have acted and spoken as if to him. Professionally, according to the orders of his bosses in Moscow.

### **Abusing the good faith of the brothers in Chisinau.**

Before going to Chisinau, Mr. Victor Crăciun went to Mr. Ion Iliescu. Before going to Mr. Ion Iliescu finding out that I was going to introduce myself to Father Patriarch Teoctist, reacted quickly— To the Father Patriarch, I'm going! And he also went to the Patriarch! Arriving in Chisinau, he abused the good faith of the brothers there, becoming a delegate from Bucharest, on behalf of Mr. Gheorghe Gavrilă Copil, personally. Delegate, delegate, but what kind of delegate? Just don't had ordered G. G. Copil to commit the fraud to which he was fit! For that something had delegated him, someone else had mandated him. Brothers, Victor Crăciun began to speak, we must not upset the Soviets. Listen to me. I know what I'm saying. Don't forget, I represent Mr. Gheorghe Gavrilă Copil. I have to we make the new call. Here, we have before us all the documents of the National Committee of Action Bucharest-Chisinau Free Pass, as well as of the Cultural Society Bucharest-Chisinau. Let's keep their spirit. At work brothers. Is no more time lost. Not a minute. And the brothers from Chisinau worked with feverishness, to a call that respects only in appearance the text and the spirit our documents. The skilful Victor Crăciun embellished them all.

**Myrrh! Panimaieș ?!**

A few changes or omissions slip into the new call, all of which corroborated, they prove to us that it was not accidental.

1) Instead of the Prut of our tears ..., the Flower Bridge.

2) The paragraph from the original, mobilizing and successful call in the report between the Romanian Revolution and Moscow, that RSS Moldovenească, Bucovina de north and the counties of southern Bessarabia are the German R. D. of Romania, is completely removed.

3) The phrase Prut of our tears, so mobilizing, with reference to Octavian Goga and the need for Union, is eliminated, but Mr. Victor Crăciun, feeling a little uncovered, introduces himself inside the new one I call the expression "The dust of our patience."

4) Victor Crăciun scandalously abuses the good faith of the brothers of over the Prut, so that in the new call the phrase (Black on white!) is inserted ☐ „It will not be give no speech, no slogans will be displayed, no call will be made. "Comrade Victor Crăciun! Moscow did not expect such a thing either result of your mission! Meet at the Prut, with your fist in your mouth! Myrrh!

5) And to make everything seem natural, the new call reads "This is it which came to the attention of Mr. Mihail Gorbachev ... by Gheorghe Gavrilă Child, in which the objective of our action today has been suggested. "Whose? Just The "organizers" from now on were others. The organizer, the man in front, was different!

### **Iurie Roșca**

Victor Crăciun, well-versed, decides to solve an extraordinary situation by telephone. Victor Crăciun - Mr. Iurie Roșca, the call is ready. Worked to him the whole elite. I'm here next to me. Listen. And read a few paragraphs. Iurie Roșca has an escape. An observation. Victor Crăciun☐ - It is accepted.

A few more courtesies on the phone, then Victor Crăciun, suddenly interrupt the call. Victor Crăciun, to the brothers from Chisinau, nearby "Have you seen the brothers?" And Iurie Roșca agrees! Mr. Victor Crăciun, what did he agree with? With the way the observation was inserted in the text to him. Did you ask? Is that okay now? Yes, Iurie Roșca answered, in the sense that his observation is expressed exactly. That he agrees with us forms. But after you put the receiver down, you extended Iurie's consent Redhead for the whole call and for signing it. Ready brothers, soon published! We don't waste time anymore! Ready! And it was ready! I'm leaving at once who needs it!

### **Victor Crăciun-Petru Lucinsch**

In a hurry, Victor Crăciun is heading to the Party headquarters Communist from the Moldovan SSR, to Mr. Petru Lucinschi, First PC CC secretary, to tell him. What to tell him?

## **Checkmate**

The appearance of the new call was a real checkmate for the Popular Front from Moldova and for the Bucharest-Chisinau Cultural Society. No more he could do nothing. The organizer of the Flower Bridge - the Cultural League ... Mr. Victor Christmas in person. From the pen, in a way, the situation had gone under control of Moscow and some of our earthlings with a Kremlin soul. He had silenced the Moldovan People's Front, the only political force unionist permanently participating in the organization of this activity. That was Moscow's goal. Which he touched through the Trojan horse Victor Christmas. We were perplexed, outraged, but there was nothing we could do. I but warned Victor Crăciun that the hour of truth would come. With thanks to the mission accomplished on the way, he returns to Bucharest, where ...

### **In Bucharest, Victor Crăciun is making another great one**

It announces in writing all the embassies in Bucharest that the Cultural League for the Union of Romanians Everywhere is the organizer of the Bridge of flowers. Not a word about the Front or Bucharest-Chisinau. Only a man who listened to some commanders could do everything he could made to him. Otherwise it would be something sickly, the urge to be in front ... Madness in the whole law. The image of the country was seriously attacked. The embassies knew of all our activity, public activity. Not just embassies, but the entire Romanian spirit and the international public opinion. He didn't think Mr. Victor Crăciun that he is Romanian? That the prestige of a country depends on the character of his sons? In a few weeks, all the Romanian people will be he struck another blow☹ Mining. The image of the country has suffered enormously, and her face is still sifted today.

### **Telegrams from Ungheni, on the evening of May 6**

At the end of May 6, we felt compelled to communicate our thoughts our heads of state. Telegrams were sent to Mr. Mircea Snegur, Mikhail Gorbachev, Petru Lucinschi, Vladimir Ivascenco (Ukraine) and Mr. Ion Hadârcă, President of the Council of the Popular Front of Moldova. The telegrams were drafted together with the delegates of the Popular Front from Moldova from this border crossing point, but for the reasons mentioned so far, they have not been able to sign them, as they are only transmitted in the name Bucharest-Chisunau Cultural Society. Of course, it would be too much to remember in the context of these pages all, but we will select from a few that readers to be informed and to have the elements of evaluation. Because we will reproduces the statements made by Mr. Victor Crăciun, also made on the spot, from the border, in Albita, also on May 6.

### **Mr. Mircea Snegur, President of the Supreme Soviet of Of the Republic of Moldova**

"After decades of hardship, a people separated by a border abusive acquired the opportunity, for several hours, to see each other again embrace. These hours must become years, centuries, eternity. the Romanians Bukovinians and Bessarabians and those west of the Prut, we are one body alive, the Romanian people. The wound opened by the 1939 Hitler-Stalin Treaty, according to which Bessarabia was annexed, in 1940, extended annexation over Northern Bukovina is an offense to the entire civilized world ... the border of on the Prut, a real wall of Berlin ... "

**Mr. Mikhail Gorbachev, President of the USSR**

It is undeniable that in meeting the needs of the sons of the people "Romanian ... to spend together even if only hours ... Moscow today Recognizes the serious damage done to the Romanian people by the Hitler Stalin, since 1939 according to which Bessarabia was annexed in 1940, annexation extended to northern Bukovina ... "

**Mr. Vladimir Ivashenko**

"... It is known that Ukraine is not to blame for the fact that Bessarabia was annexed, in 1940, according to the Hitler-Stalin Treaty, of 1939, annexation extended to northern Bukovina. Moscow seeking to expand rule to the Danube, could not include this territory of Russia, because between Romania and Russia is Ukraine. He did the same with Northern Bukovina, to extend its dominance to the border with Czechoslovakia, in the heart of Europe. The new times of truth bring the people Romanian and Ukrainian, in front of the most stable relations of friendship and good neighborhood". Readers may find that these telegrams complied with the text and spirit documents of the Bucharest-Chisinau Cultural Society. The wording "annexation extended to northern Bukovina "belongs to the FPM delegates ...

**What Victor Crăciun, the "organizer" said**

Mr. Victor Crăciun and the representatives of the government from Chisinau have had access to television. Naturally, you will say. But, the Flower Bridge had fallen on other hands ... And the television in Bucharest and Chisinau was under control Muscovites.

1) Victor Crăciun on TV channels (Then and after) ☒ - The union will take place over a number of years. Notice the difference between the Reunifying Spirit of so far, Victor Crăciun's move of the ideal of activity in the future. Moscow, breathlessly relieved.

2) Victor Crăciun to the attention of the TASS Agency, referring to the action The flower bridge "" Victor Crăciun ... showed that she is not pursuing any goal political. Now that renewal processes are taking place in Romania and the USSR, many of the obstacles to communication between the inhabitants disappear border areas in the two countries. "That's what a KGB officer would

have said. Soviet. The reunification of the Country is a political act! And, for his name's sake God, the Romanian Revolution did not act to remove the obstacles of at the border between Romania and the USSR! Not to mention a small barter, a small trade is also practiced across the borders of other countries. This is about a border inside Romania. In this news, of the TASS Agency, it is possible he noticed, however, a certain caution, writing about Victor Crăciun, as if one of the organizers.

### **Clean KGB fiddler**

Romania's then foreign minister told FRANCE PRESS that the Flower Bridge "is a private initiative." I mean, it's Gheorghe Gavrilă Copil's problem and that's it. Shocking opinion, from part of a member of the government! Associated Press: "The leaders of FSN and PNL, opposition party, underlined that it seeks only to expand cultural relations with those beyond border. But the vigor of reborn nationalism was tangible on Sunday, when the bridge at Ungheni was opened, to allow the Romanians to cross to the other side ". Didn't they tell the truth for fear of Gorbachev not to lose their seats? What were they, leaders over chairs, or a country? As for the PNL, what kind of "opposition" party was, all Romanians know. ROMPRES-Telex from Bucharest-A new Romanian publication asks annexation of Soviet Moldova (Article signed by Toth Erzsebet in the Hungarian newspaperMAGYAR NEMZET): "The article The Mystery of Eastern Europe, from the magazine Millennium III, considers that after the unification of the two German states is the unification of Soviet Moldova with Romania is inevitable. Action Committee Bucharest-Chisinau, even before Sevardnadze's visit, at the beginning of the year, openly demanded this union, given that Romania is also divided in two, also having its "GDR": "Soviet Moldova". Last news, as can be seen, is not part of the taraf. About what kind of "private initiative" it was, the Agency explainsReuter: about a million Romanians went to the Soviet Union on Sunday, reuniting, after 45 years, with the Moldovans on the other bank of the Prut. This news is not part of the story either.

### **Kremlin approval**

The Kremlin has approved the participation of Chisinau officials in the bridge of flowers. The official delegate from Chisinau, who came with the approval from Moscow, was the Minister of Culture, Mr. Ion Ungureanu. About her found out, as many as they found out, only on May 7th. We knew nothing of this approval. You, dear readers, who do you think knew? Who expressed himself the desire to be in Albita? Why in Albita? Because they will be present here as well Chisinau officials ...

### **The flower bridge**

Those who suspect that the new title of the Flower Bridge belongs to Victor Crăciun, he's wrong. He often appears in the documents of the Cultural Society Bucharest-Chisinau. So in the open letter to Mr. Peter Lucinschi „On May 6 ... about a million Romanians ... will walk with flowers the wound caused by the imposed border ... “

Also in the open letter addressed to Mr. Vladimir Ivasco, prim secretary of the CC of the PC from RSS Ukraine? „Romanians in Romania will walk with flowers the waters of the Prut ... The same flower bridge, from the Prut, will advance towards the Danube “. The name of the Flower Bridge seems to have been uttered by a brother from Chisinau, during the last call. And Victor Crăciun, with his cunning which he proved, insisted that this expression be the new name of this activity. Or maybe he said it himself, but unfortunately he didn't managed to contribute honorably, with nothing, for the Prut event. What a pity that Mr. Victor Crăciun did not stay at the activities conducted by the Cultural League for the Unity of Romanians Everywhere, at meetings with writers from the Republic of Moldova and northern Bukovina and at the settlement busts of Mihai Eminescu east of the Prut. Doing just that something, it created suspicions about other aspects of his walks among the Romanians east of the Prut. Opposition from the Republic of Moldova. Both the FPM and we, the SCBC, were also from the Opposition.

## 1) Crossing the Prut

2) The delegation from the Popular Front of Moldova - on the right, Father Buburuz, on the left, behind the flag, on the sleepers, Mihai Ghimpu-advancing to the middle of the bridge over the Prut. Who will you meet?

3) The parliamentarian Petre Solcanu, the trusted man of FSN and of Mr. Ion Iliescu. Very well! Only he appeared in this activity just now and in sight. And it would have been great again! Gheorghe Gavrilă Copil, considered, at the top, from the sphere of the presidency and the governors of FSN in Bucharest, "Extremely dangerous," he was prevented from arriving here in time. And it would be again was still very good! But the FSN parliamentarian, we sincerely regret, showed up as a simple private person, representing himself. Exit in front of him and other officials, of FSN, from Iasi, were scripted from Bucharest and by the FSN bodies from Iași. In front, why? No more to embrace their brethren from Soviet captivity? Just for that? The others representatives of FPM, noting that Gheorghe Gavrilă Copil is not in the meeting group, returned, together with the other Bessarabian Romanians, with coils of beautiful wheat, prescure from Christ, with three candles, in the name  
Of the Holy Trinity, who watches over our holy and erased ideals and Romanian flags, waiting for him with confidence. They weren't wrong. Gheorghe Gavrilă Copil had arrived, however, near the bridge, but even when the meeting between the brothers  
It was over and the Bessarabian brothers had set out for the Bessarabian shore the crowd began to flock to the bridge after them.

4) Delegation from FPM

5) In the name of the Holy Trinity

6)Gheorghe Gavrilă Copil

7) Mihai Ghimpu pointing to the area where the crowd was waiting for us FPM members and supporters.

8) Crossing through the crowd of people waiting for us, sealing thus the joy of completing the activity Prut of our tears to cover it with flowers, organized by the Bucharest-Chisinau Cultural Society and the Front Popular in Moldova.

The Bucharest-Chisinau Cultural Society was brought to the fore activity, on the day of the completion of the Flower Bridge. In Albita, Victor Crăciun. To Ungheni, Petre Solcanu. And others. Other people, other attitudes. Behind there were many heads subordinated to foreign interests.

Chisinau's governors have asked Moscow's approval to participate at the event-the Republic of Moldova was then still a Soviet republic.

The governors of Bucharest advanced some representatives in front of them, but as private individuals and not of high political rank. Note that those from Chisinau, however, did not shy away from appearing as officials. Of course

Moscow's approval also mattered. Bucharest officials had Do they also need Moscow's approval? No, only Romania was not a republic Soviet! Did Bucharest also ask, or did it not ask for Moscow's approval? It's sure that the officials from Bucharest received the instructions from Moscow, then a little through the USSR Embassy in Bucharest, and the comrades in Bucharest have played accordingly, avoiding behaving in accordance with national interests of Romanians, thus playing the game of foreign interests. Of course we have in and the telephone calls between Mr Ion Iliescu and Mr Mikhail Gorbachev, Mircea Snegur and Petru Lucinschi. The Popular Front of Moldova had Members of Parliament and members of the Government in Chisinau, so it was not tried to remove it on the face and total, but as I mentioned, in other representatives appeared to greet his representatives. And in Albita, Chisinau officials were represented by top political figures, but who were not part of the FPM and openly opposed this party political. With Moscow's approval, they came forward casually, ignoring FPM. It is necessary to emphasize again that neither the Popular Front of Moldova nor did the Bucharest-Chisinau Cultural Society request the agreement Moscow. They acted boldly in the interest of the Romanian people. Evolution events confirmed that they were on the right track. The responsibility of others to history and to God will not be left expected. Moscow has managed to act on the presidency and governors in Bucharest through the KGB chain, thus avoiding opposition and inevitably provoke appropriate public reactions, and Michael Gorbachev thus managed to avoid making public statements - a lost once, after announcing that the Soviet border army would not allow no one to violate Soviet territory (Which Soviet? On the one hand and by another of the Prut being inside Romania!). There is still some doubt about it KGB networks in Romania, subordinated to Moscow?

### **The first thousand students from across the Prut at schools in Romania**

During a working visit, in Bucharest, of Prof. Mihai Avădanei, the president of the Bucharest-Chisinau Cultural Society-Iasi branch, shows me a address from Costache Negruzzi High School, where he was and is a teacher. Apply for scholarships from the Ministry of Education for a few students from The Republic of Moldova, which he wanted to bring to his high school.

"What do you say, Brother Gavrilă?"

- The idea is great, but like a drop of water. How to do that these drops to become a rain in the whole of Romania? And as soon as possible!

- In the whole of Romania? Brother Gavrilă, if I snatch these few scholarships for Negruzzi high school, it's a great thing! That's it!

- Mihai, that's how we were raised, to make bibliographic references right, let's not take anything that isn't ours. And an idea to a

we mention from whom we have it. When the time comes, I will remember.

- It's hard, brother. Do you see them lurking? With the Flower Bridge as it was, with last minute annexation and hijacking! But now?! The few children in I still take Bessarabia to my high school, with or without scholarships.

We said goodbye. A voice from the depths of my being told me that in problems that do good to the whole nation, there is no impossible. There is only action, work, dedication. Without asking for anything in return. And if you have the soul of Romanian, means you don't miss anything. No finances, no conditions favorable. I started getting in touch with trusted people in the country. What the great is when the Romanian Nation is alive in our souls! I was thinking about fel. So at work. On June 12, the day before the miners came to Bucharest - a state of civil war caused by the Power - we started a public activity for the free schooling of the sons of the brothers from the eastern part of Romania, under the occupation of the USSR, in free Romania, from the west to the Prut. The call cain Viitorul from June 12, Gazeta de Botoșani from June 14, Adevărul from 19 June, Free Romania from June 20 and in other publications. Remember what it was in June. The Romanians hunted Romanians, trampled on them, destroyed the headquarters Opposition, University laboratories, martyring students. They had the addresses of some of us. If I write these confessions, it means I have trust in the young people of this country, to whom, par excellence, they are addressed. I repeat, there are no unfavorable or adverse conditions that cannot be overcome for the love of the nation. The KGB power in Romania acted as a force repressive against the establishment of democracy, acted in accordance with the new politics of the USSR, of communism with a human face. But in Bucharest, the KGB members here had long surpassed the KGB members in Moscow. To this state of civil war in Bucharest, a typo was added to the Appeal printed in the newspaper Adevărul. Wrong number from phone number and the phone calls hit a man who turned out to be catastrophic for our activity. He screamed, verbally assaulting everyone. I tried to quiet. I didn't succeed, on the contrary. The next day the Truth made the correction of rigor, in a sentence lost among other sentences, so that the ordeal lasted a long time. Another material, Adevărul, has never been published before. He worked day and night. It's time to say a word of appreciation to Maria, my wife, who has been doing the secretarial work for years anonymity and full modesty. I addressed the young people. Never have I been pay for our work. I made a living as a schoolteacher general. We also paid the phone and office fees. Naturally, you would say, only the headquarters is in your apartment. Not you contradict. We never touched the money in the account Maybe we're alone association or party in the

country that we did not use, that we did not touch either a lion in the account. Absolutely all of them were automatically destined for the brothers of over the Prut. Badea Cârțan, a Transylvanian shepherd, also acted for Unirea Transylvania with the Motherland, before many of its contemporaries, begging for books in Bucharest, filling his sacks and taking them on foot with the risks of crossing the border of the Austro-Hungarian Empire, to its Romanians from Transylvania. A good state of mind depends on us, regardless of the conditions in we live. A good Christian is also a good Romanian. Not being like that, we are weak and divided. Phones across the country were out of control. From everywhere, from the side state institutions, from private individuals, from villages and cities, we were told how many students they receive. I'm not exaggerating. The country was ready to continue to educate, free of charge, all the children of the Romanian people, so also of the brothers across the Prut. I ask for financial guarantees for every Romanian from Bessarabia, northern Bukovina and Herta County, for four or five years. Our high schools last for four or five years. The world is upset, outraged, offended. Guarantees, when they are ready to give their lives for their brothers from Bessarabia, as they gave it in 1941, when they crossed the Prut with a gun in hand, forcing the Russian occupiers to leave Romania! Refusal receiving children in families. If I accepted for some families, I had to we accept for all. Careful non - supervision of a single child from Bessarabia would have hurt us all. One divided family would be cast a shadow over all. But in families that had boys and girls, how to integrate the boy or the girl from Bessarabia? But even a single familywith reprehensible behavior? I've been on the right track for a while. Students will be received only at high schools with boarding schools, and only through financial guarantees for the entire duration high school, for every Romanian puppy from the east of the Prut. Directors of high schools, inspectorates, teachers, hospitals, research institutes, enterprises, private individuals from towns and villages, theological seminaries, trade unions, have began to mail the documents guaranteeing the resources financial. We have an intelligent, receptive and disciplined people. road delegates from the outskirts of the country to meet the time limit and to make sure we send them children. Finally, there were financial guarantees thorough for a thousand students. I repeat, only people with a desolate soul can speak ill of this people! But also the trust and longing of the brothers the Bessarabians were tumultuous. They were able to send all their children to study in Romania. The USSR pressed them with all its might on the empire, but they were and ar diamond. I submitted a file to the Popular Front of Moldova and one to government, staff of Mr. N. Mățcaș, Minister of Education. A large joy passed through the other ministerial cabinets. The file

has been verified scholarship by scholarship. The offer is accepted. Without the approval of Moscow, the Ministry Education organizes the selection of children who will come to Romania, on the scale of the entire Republic. At each commission, consisting of inspectors and specialized teachers, there was also a representative of the Front. I was and we are and will always be the same people. In all of us the same heart beats Romanian. Only in the Republic of Moldova began the troubles that could it compromises everything. And the Front was going to be hit hard. Appeared the representatives of some cultural associations and leagues from Romania, very people good intention, but they started to make lists for pupils and students who want to come to study in Romania. The front had a large grip among the Bessarabian Romanians. The front was the party responsible for the selection children. Some students and future students did not go to the commissions, the parents being happy that they managed to put their sons on one of these lists. The representatives of these associations in Romania have gone so far as to give understandably that they also work on behalf of the Front. Ask the Front on financial guarantees, indicated some high schools and universities in the country, arguing loud and clear that it is precisely these educational institutions that guarantee the activity their. White night at the Front. At dawn a decision was made. The front, without knowing it no one sent a delegate through the country to Timisoara to check and warranties for these lists. No high school or university knew nothing, not even the people who had made the lists had contacted him these educational institutions. The delegate was Iurie Roșca. It was hard for him The front to clarify the parents, that without the legal, official commissions, of selection, their children have no chance to study in Romania. The representatives of the associations in their enthusiasm did not take into account either the fact that the Bucharest-Chisinau Cultural Society had only collected scholarships for high schools in Romania, not for students. They also made lists for universities. They did wrong. Rumor has it that some young people don't want to Romania is going, because ... A state was weaving around the Front worrying. Now, Prof. Mihai Avădanei appears from Iași. He understood from a fire the situation. He also patiently listened to Mr. Iurie Roșca, about his way to Romania, about which he did not speak to anyone, because from the misunderstanding of the situation should not lead to some anti-Romanian opinions. " I'll handle this situation , " Mihai Avadana said in a low voice. Mr. Iurie Roșca, if I bring an address from the University of Iași, signed by the rector and accounting, which shows that it is guaranteed the maintenance of a few dozen students at the University, okay? Mihai Avădanei returned from Iași with solid guarantees from him Rectorate of the University. Only for these places were selected and

students. List builders, understanding the gravity of the situation they have they had grown, they had disappeared. In Bucharest, they started knocking on the door of the first one minister to get them out of the impasse. The activity was of the Cultural Society Bucharest-Chisinau, of the Front and of the Government of the Republic of Moldova from the moment of involvement of the Ministry of Education and the Front, the Society Bucharest-Chisinau Cultural Center had ceased its activity. They remained face to face The Government of Romania, the Government of Chisinau and the Front. That's how I understood it it will also happen at the Flower Bridge. We'll do something like this in two days on Monday, bringing face to face the Government of Romania and the Russian Federation. But not we anticipate. What did Mr. Petre Roman, the Prime Minister of Romania, do? Approved a one thousand scholarships for students and one thousand scholarships for students. A thousand students has a general school among a group of blocks, then another school. That's about it pupils and students came from the Republic of Moldova, southern Bessarabia, northern Bucovina and Herța county, throughout Romania. The government of a country with a well-developed network of schools, a country then with a financial situation good (Compared to the surrounding countries), with boundless enthusiasm for brothers across the Prut and theirs to us, to receive a number of students, how much do you have in a general school? The country's government to offer fewer scholarships than the Bucharest-Chisinau Cultural Society, an association, managed to gather non-governmental ?! And what's worse is that nothing was actually obtained. The thousand financial guarantees already existed and the children had been selected for them. The Government of Bucharest announces the Government of Chisinau that receives in Romania a number of children equal to the number of scholarships offered by the Romanian state. Only Mr. Petre Roman did not throw a activity of a non-governmental association, but a chance of Reunification Romania! Of course, Mr. Petre Roman can say that he talked on the phone, his offer, with those from Chisinau and they received it with joy. But they could to express his revolt? During the development of this obtaining activity of financial guarantees, at the level of the whole of Romania, I had always advanced the idea that Romania can receive ten thousand young offspring of the brothers from across the Prut. "Today we would have had 10,000 sons of Romanians from across the Prut. Officials from Bucharest thus blocked the idea of the Union, giving respite to the anti-union forces from USSR, to maneuver against the natural course of history ... Under our eyes reunified Germany, but Bucharest, although it had a free way, at least on the line education, it hurt us all. We are not allowed to leave our brothers

across the Prut, prey to uneasiness and bitterness difficult to understand and bear " (Bessarabians cannot take their children to school in the Motherland. See publication Civic Alliance, no. 78, of 17 Oct. 1991). Mr. Petre Roman had not yet made the famous government decision to block the Reunification of the Country, through the draconian limitation of the number of children of across the Prut, to come to study in Romania, when I informed FPM the fact that I am going to Moscow and Siberia for a long activity prepared, with very serious documentation, since before 1970, but also in recent months, especially in Chisinau. It's the first and last time FPM had reservations, even if it did not testify directly, on the one hand considering that the objectives I had in front of me are too big for my humble person and also in this sense, the real difficulty of being received, for talks, by the Government of the Russian Federation, knowing that the manner in which I was to approach the proposed objectives was in the light of historical data objectives, but also because the FPM brothers were worried about the possibility to lose track of me forever in the USSR ... That's why they were gathered the days when the opposition to our decision, kept me in place. These days were perhaps among the hardest to bear in the wholemy life. The distrust, after the days of blocking the departure, I noticed from some writers, so from a respected editor-in-chief, from a important publication, which, only after a few sentences, I have said, he gave up the idea of a pre-departure interview. It was now it is about something else, another reason for distrust, apparently, motivated. A huge, soulful force, in itself, was for departure. The fact that those they had stopped me, brought me into a state of great mental tension. The soul had set out for Moscow and Siberia, but my body was still there. In the those circumstances I communicated to FPM that my decision is unwavering. A series of consultations with FPM and premium management factors followed size of the Government of Chisinau, including with Prime Minister Mircea Druc. Also now, Iurie Roșca urgently called from Chernivtsi, Mr.Constantin Covalciuc, who accompanied me as a translator, to Moscow and beyond four days in Siberia, after which he returned to northern Bukovina to immediately involved in the opening of Romanian language schools. I have I continued to cross huge Siberian stretches alone, looking for brothers Romanians there. The reunification of Romania was one of the major coordinates of the Romanian Revolution. The chances of Reunification were kept up to date during 1990. The Reunifying Spirit of the country was active, on a large scale national and in 1991. Those interested for the years 1990 and 1991 (and in continued) have at their disposal the list of documents of the Cultural Society Bucharest-Chisinau. Prose volumes have found their place in this list thanks to the same Reuniting Spirit of the Country, which pulsates from their pages. The novel La apus de

soare, a novel of the Romanian resistance, after 1950, from Romania and the inextinguishable candle of the Reunification of Romania, was written in 1978, and How is God on the Cross ?, a novel of deportees Romanians from Siberia, 1977-78 (A copy, in manuscript, reached Chisinau, in September 1989). What has happened in Moscow? The government of in Moscow accepted, in principle, the opening of Romanian language schools, for Romanians in the Russian Federation. An agreement was reached in principle. To we remember. The USSR existed, led by Mikhail Gorbachev. In the within the USSR, at the head of RSFS Ruse, was Boris Yeltsin. I went to the Yeltsin Government in this year of grace, 1990, in August. At the Romanian Embassy of in Moscow, panic. Until after the talks, when I brought the ambassador Sandru a videotape with all the conversations. After watching it exclaimed "No mistake!" Excellent! He asked me what I could be with useful, but as a career diplomat, he suddenly realized that I had paved the way for Prime Minister Petre Roman and for President Ion Iliescu, for the signing of an agreement between the Russian Federation and Romania, on the line of education. The talks took place hierarchically. Accepted conclusions were reached on both sides. The possibility was created to receive the first vice-president of the Russian Federation. Above the first vice president was Boris Yeltsin. I elegantly retreated, arguing that at the meeting with the first vice-president and president of the Russian Federation, the place belongs to the First Minister and the President of Romania. The Russians knew how to appreciate abstention my. I had won a great battle. I had paved the way for meetings at the top. I still had the chances of the Romanian Reunification under control. And The Russian Federation, then, needed good foreign relations. Refusal governors in Bucharest to protect their Romanian minority from the whole of Russia amazes me to this day. The Russian government was going to subsidize all schools with teaching in Romanian. Just like he does The Government of Romania for our minorities.

### **In Siberia, to the deported Romanians and their descendants**

From Moscow I went to Siberia for the first meeting of a messenger from Romania, after the Revolution, with the Romanian deportees and their descendants. Today, like all Romanians in the Russian Federation, they would have had language schools Romanian. He would have begun to build churches in which to listen to the Holy Mass also in Romanian. And not only in Russia, but also in Ukraine, Kazakhstan and in the other former republics of the Soviet empire. Our officials were and this time absent. What about the Opposition?

### **Corneliu Coposu and the USSR Ambassador**

In the autumn of 1990, when I returned from Siberia to the PNTCD, coldness and aggression. Why, my God ?! The whole leadership knows why.

Mr. Corneliu Coposu had been invited to the USSR Embassy. COMRADE  
The ambassador told him that he did not understand why Justice, the PNTCD  
newspaper, was Bucharest-Chisinau Cultural Society office. Given that in  
The justice of August 28, 1990 is communicated to the Romanian public opinion  
the entire leadership of the PNTCD-undersigned appearing in the body of  
members deputies of the Steering Committee-deputies of the central  
departments suspect that the meeting with the ambassador of the USSR took  
place after this date. With all discretion, I was pushed out of the PNTCD  
leadership and from Justice. The governors in Bucharest got scared and  
reproached me for being at Boris Yeltsin (Russian Federation), in conflict with  
Mikhail Gorbachev (USSR). I answer that I can repeat the visit, this time to Mr.  
Mikhail Gorbachev. After what I explained to them and they were convinced  
that they could be received by Mikhail Grobachev, they have silent. For fear of  
the USSR, Corneliu Coposu did not escape either! Although he had a way free  
to the Yeltsin Government, did not respond as expected. He would have been  
in the interest of Romania and of the Reunification of Romania. Then Boris  
Yeltsin had need allies. Corneliu Coposu, not even after the fall of Mikhail  
Gorbachev, no managed to mobilize for such a visit. History had given him a  
chance exit, in the interest of Romania, on the forefront of international life.  
When it was asked and advised to meet Boris Yeltsin, stood up, refreshed,  
but after a few seconds he sat down again, dejected. Asking someone why  
this restraint, hesitation, helplessness, he answered me, because of the fear he  
had accumulated it after the beatings received in prison, from the KGB  
members. I add, The KGB supervised him even after his release from prison  
and, no doubt, after the Revolution. In other words, neither the Government  
nor the Opposition have committed themselves for the Reunification of the  
Country. It is well known that members PNTCD, advised by the PNTCD  
leadership, slowed down the Company's rallies Cultural Center Bucharest-  
Chisinau in support of the brothers from across the Prut and al Reunification of  
the Country, causing people to stop coming to rallies, arguing that this is not  
the time for such activities. Let's wait until the FSN will be overthrown from  
power until the PNTCD comes to power. A arrived, but it disappointed us all.  
But let's go back to the Discourse in 1990. Mr. Corneliu Coposu, President of  
PNTCD (Justice, December 4 1990), spoken in Alba Iulia. It includes only one  
reference to the Romanian territories from across the Prut, through the words  
Chisinau and Chernivtsi, here is the fragment "Let we pay tribute to the  
country, to the great builders of Romania King Ferdinand, Ionel Brăteanu, Take  
Ioneascu, Nicolae Filipescu, Nicolae Iorga, those who they were at the head of  
the community in Chisinau and Chernivtsi". But in the Speech by Mr. Corneliu  
Coposu on December 1, 1991 (Justice December 5/6 1991)? Absolutely

nothing, nothing, nothing. There is still room for doubt as to why spent at the top, in the leadership of PNTCD? Attempt to restore communism, known as the Moscow Coup in August 1991, confused PNTCD, proof that the first reaction of a PNTCD leader, to Television, was considered unfortunate. Corneliu Coposu's speech since December 1, 1991, it is true that the PNTCD had not been released the Kremlin's terror syndrome. Corneliu Coposu, just in time The coup, being asked to react, did not pronounce, in any way, except thus: "What if the Russians come?" We understand this state of mind. We do not judge no one. We only record data, facts, attitudes, etc., as they were. Through these confessions I did not deny the hot desire of Corneliu Coposu for the Reunification of the Country. He loved his country and suffered in the face of great injustices made to the Romanian people by Moscow. He went to the Lord in 1995 with one year before the PNTCD came to power. He left us, though speech, as a testament to the Reunification of Romania, but too late. It is therefore necessary to delay a few lines on the Declaration on Bessarabia-drafting Pop Iftene-text broadcast to participants in the Congress PNTCD from January 1996. The declaration, after discussions, was to be voted and to it becomes a document of this Congress, a party document. Only it was something happened that would have dishonored any party. While the author of the Declaration he was reading it, on stage, at the microphone, next to the whole presidium, a peasant from hall, hurried to the stage and shouted at Iftene Pop, why didn't he get up the problem of Bessarabia when he worked at the Ministry of Foreign Affairs in his time Ceausescu, and towards the presidium, let's leave Bessarabia more slowly, with this one territory, because we have no reason to consider it Romanian. Presidium The PNTCD Congress softened, complied and only in three or four minutes a removed from the agenda the Declaration, Mr. Ion Diaconescu saying, in the plenary Congress, that after the Congress they will direct it to the youth sections of branches in the country ... And the Declaration for Bessarabia was buried. Pntcd he had not yet come to power. Was it also the fear of the KGB? But behold, The 1996 Democratic Convention won the election. The most important party, PNTCD. The representative of the Convention, prof. Univ. Emil Constantinescu arrives President of Romania. A few months after the investiture, it surprises us all yielding to Ukraine, southern Bessarabia, northern Bessarabia, Heraklion, northern Bukovina (And as can be seen on Snake Island), without mention the Molotov-Ribbentrop Pact. It's about the Treaty with Ukraine, through which the current borders are recognized ... so, as if the remaining territories in Ukraine it would have nothing to do with Romania. Also after the takeover of power by PNTCD, Corneliu's successor Coposu at the leadership of PNTCD, Mr. Ion Diaconescu, one year after taking over government, was in Moscow.

Although the Government of the Russian Federation had given up the agreement in principle since 1990, for Romanian language schools in its entirety Russian Federation, agreement on which PNTCD was informed in detail, Mr. Ion Diaconescu did not raise the issue of protecting Romanian minorities. Anything comment and prisoner. To read, for edification, the transcript of conversations of Moscow.

### **Union for the Territorial Reunification of Romania**

Let's go back to 1991. Then, after the intense public activities in 1990 we had managed to bundle almost all the unionist associations with headquarters in Bucharest and some parties in the Union for Reunification Territorial of Romania. The governing bodies were elected. A simple one followed formality. The election was attended by the press. He had announced the establishment of the Union. It appeared an article in almost half a page of a newspaper (February 1991). Mister Manu Valentin, scientific researcher at the Institute of Atomic Physics, among for two or three months, was proposed and voted as a member of the board (au one president, one vice-president and three members were voted). Mr. Manu Valentin only before submitting the minutes of the constitution to the court, he objected, threatening to protest in the courtroom if he testified the minutes. Why didn't he say anything before? Question that did not never answered. It would have been easy to propose and choose someone else. Those proposed, When asked if they wanted to be part of the leadership, some said no the proposals were not put to the vote. He agreed to be elected. That's right there came to be no political force capable of opposing Mr. Emil Constantinescu and company, so as not to issue the Molotov-Ribbentrop Pact from the history of Romania. Union for the Territorial Reunification of Romania a was well received in the political world, signing with the National Party Christian Democrats, National Liberal Party, Social Democratic Party, Declaration of Romanian parties, organizations, associations and the signatories of this declaration in connection with the intention of the URSS to organize a referendum in the Republic of Moldova on March 17, 1991. The initiative and the working text belong to the Bucharest-Chisinau Cultural Society. On behalf of PNTCD, he was delegated to this working meeting (At the Museum municipal history), the deputy Ion Lup, who also signed the declaration. The meeting ended with the signing of the Declaration by the twenty-two five representatives of parties, associations and trade unions. See Dreptatea (Justic) in 13-03-1991).

### **Romanians across the Prut in the Romanian Parliament**

Unfortunately PNTCD was not receptive to our proposal to

passes on the lists of candidates for the Parliament of Romania and on the Romanians of east of the Prut. I was considering the Democratic Convention lists. Or requested fourteen seats. So very few. In order for there not to be any concern that some CD members would lose the opportunity to join parliament, the Bessarabians decided to be put on the lists for constituencies in Moldova, to be supported by thousands of Bessarabians, who would have clarified their relatives and acquaintances from the west Prutului votes for the Bessarabian Romanians. It was well known that Moldovans will vote for the people of Mr. Ion Iliescu. The hasty response of PNTCD was that PNTCD will win in the general elections and in Moldova ... This was the formula for refusal. PNTCD has not committed itself in this way either, on the way to the Reunification of Romania. At one point Corneliu Coposu left his heart to speak and said that a list of fourteen Romanians was accepted Bessarabians, but to be o Superb minute, but that's right the next few days, he was completely forgotten. We don't know why and how something like that happened. He was also forgotten when a delegation from Chisinau, from at the FPM and discussed for several hours, but not about the common electoral lists, which PNTCD did not consider! In the face of this situation I asked Iurie Roșca, this elite unionist of the Romanian Nation, leader of FPM, political formation with a constant Reunification of Country belief, to determine it Leonida Lari, to appear at PNTCD and to propose her candidacy. Romanians across the Prut had and still have this historical right. I bet on the ease and personality of the poet. Loenida Lari then enjoys a real sympathy from all Romanians, which was to their advantage PNTCD, during the election campaign. Between Iurie Roșca and Leonida Lari relations had cooled, Iurie Roșca having to go beyond his beliefs, out of the need to break the non-receptivity of those in Bucharest. It had to be created even a single precedent. The right to the country had to be awarded. Leonida Lari, after leaving PNTCD, he became a controversial figure. But we must emphasize the shock he suffered as a PNTCD deputy, when a found that she, an undisputed unionist, found herself in a party without a such concern. Without being understood and supported. Then why did he come to Bucharest? He confused the activity of the Bucharest-Chisinau Cultural Society for the Reunification of Romania, with the activity of PNTCD? Very few Bessarabians knew the truth ... But if the Romanians from the territories annexed by the USSR would have had a parliamentary group in the Romanian Parliament, as had I foreseen in this proposal to the PNTCD leadership? In 1992 it would be candidate for the Parliament of Romania and Romanians from the south and north Bessarabia, Herta County and Northern Bukovina. But some don't

benefited from their historical right even in 1996. And it is known, there is an absolute way to access the Romanian Parliament! How hard it would have been for Iurie Roșca, a representative of a unionist party, to come in the years after the Revolution to PNTCD, out of solidarity with PNTCD in the fight against communism, although he knew that PNTCD was absent from the national debt for the Reunification of Romania! Many Reunification of Country chances were wasted in the years after the Revolution Romanian! The sky was attentive and generous with us (Romanians wanted common lists for elections. The press in Bucharest and Chisinau was receptive – see articles Romanians across the Prut must participate in the general elections from Romania Chisinau MPs, majority in Bucharest. Attention, in Moscow, Romanian politicians!).

### **Is PNTCD also a KGB party?**

Of course, PNTCD also had very good moments. Thus, the statement of party There is no right to self-determination for Bessarabia and Bucovina (Dreptatea 25/26 Nov. 1991). By this he respects the title of national party. If he hadn't deviated from her, or if he hadn't ignored her, even if such an involvement was after the great chances of Reunification of Romania, we would still have had a political party, so necessary, not to reaches the dedication of an important Romanian territory, Ukraine, without any kind of reference to the Molotov-Ribbentrop Pact. Today a situation has been reached extremely embarrassing. In Free Romania since August 23, 1999, Pop Iftene signs a page entitled the Ribbentrop-Molotov Pact. In order to contrasts the attitude of PNTCD, from April 1991, to a draft treaty with former USSR, signed by President Ion Iliescu, referring to that treaty, Mr. Pop Iftene writes in black and white, in which nothing was mentioned of the effects deeply harmful to Romania and illegal, of the Ribbentrop-Molotov Pact ", and refers to" a statement "by the PNTCD (Justice 3 May 1991), about which the same Pop Iftene writes, also in black and white, that PNTCD "Expressly or in subtext shows that the USSR had to recognize in the future treaty Romanian-Soviet nullity ab initio of the Pact also regarding Romania ". Subtext has the same meaning as between the lines. Only in some statements of PCR was read between the lines, but in a democracy, in a vital issue for Romania, it is unacceptable. Why Pop Iftene avoided the statement from November 25/26? Because PNTCD asked the FSN Government since then "Let make a public statement when Ukraine will become independent (in all probability on December 1 a. c.) in which to shows that northern Bucovina, Herța County, the former Hotin counties, the White Fortress and Ismail, as well as the Island of Snakes, were seized by the USSR by force from Romania and illegally included in the Ukrainian state.

They will have to come back Romania, following negotiations, peacefully "(We emphasize that this it is not "a declaration" but the Declaration of the National Christian Peasant Party Democrat-uppercase). PNTCD had not yet come to power. But, over a few years, in 1996, a few weeks before he took power? We return to Iftene Pop's text "Negotiations for a treaty with the state successor, Russia, were resumed and worn for several years, as in 1996 (also in April) to arrive at a text that was to be initialed, for which E. Primakov, the then Russian Foreign Minister, had come in a hurry, just from China, shortening his visit to that country. Only because no this project made no reference to the Ribbentrop-Molotov Pact, PNTCD and other members of the opposition, in the Advisory Council attached to the MFA, rejected its initialing, E. Primkov leaving Romania, by slamming doors and very irritated ... E. Primakov, while he was foreign minister and then prime minister of Russia, therefore, in 1999, claimed that it would not change any commas in the project of the Treaty not initialed in 1996 and will never accept the conviction The Ribbentrop-Molotov Pact. " He had this political attitude responsible for PNTCD, a good media coverage? Yes, on merit. So, in The daily of April 25, 1996, under the title CDR accuses the content of the Treaty with Russia, it is written "CDR proposed an urgent meeting of all parties yesterday with President Ion Iliescu. The object of this meeting is the discussion discussing the content of the Treaty with Russia, which seems to be signed soon. The urgency of the proposal is determined by the imminent meeting - at the end of this week - between Ion Iliescu and the boss Kremlin diplomat, Evgheni Primakov. According to the latest data hour, CDR staff is concerned about the possibility that the party to have abandoned the attempt to include a provision in this treaty condemning the Ribbentrop-Molotov Pact. CDR intends-in case in which the meeting with Ion Iliescu will materialize to prevent evasion from the treaty condemning the Ribbentrop-Molotov Pact. At the same time, the main one Opposition alliance condemns the fact that Foreign Minister Teodor Melescanu did not consider it appropriate to consult with political forces before preparing the initialing of this treaty (L. G.) ". Primakov's position was one of desperation and irritation in his grandiosity authoritarian, imperial, which he had not got rid of, although Russia had set out on the path democracy. Through such reactions, he confessed that he had no choice but to accepts the inclusion of the Molotov-Ribbentrop Pact in the Treaty with Romania. He was under psychic pressure, as in the time of the USSR and so on, relying on weakness some Romanians sick of the terrorist effect of the Kremlin. Just like proceeded in a few months Ukraine, which managed in a few days to scare Democratic Convention, led by PNTCD-shouting that Romania has pretensions It would be time to remember that both the

USSR and Ukraine do not they could not even invoke the Paris Peace Treaty of 1947, because in this treaty of the USSR imposed the wording that the border between the USSR and Romania was established according to the 1940 "agreement" between the USSR and Romania. Such a agreement did not exist. Moscow tried to erase the word agreement ultimatum, to hide the fact that in 1940 he gave an ultimatum to Romania, imposing, by threat of force, on the basis of the Molotov-Ribibentrop Pact, a new frontier (within Romania), between the USSR and Romania. In other words, the annexation of Eastern Romania, by the USSR, on the basis of the Molotov-Ribbentrop Pact is confirmed by the text itself Paris Peace Treaty, 1947. Pop Iftene, as best he can notes the rejection of the draft treaty with Russia by PNTCD and other members of the opposition, but keep quiet that only a few on Monday, CD, led by PNTCD, initials just such a treaty with Ukraine, setting a dangerous precedent for signing the treaty with Republic of Moldova and Russia. It is known that the fault for signing such the treatise has, par excellence, the president Emil Constantinescu, but also Mr. Adrian Severin, foreign minister, member of the Democratic Party, who is part of the Government Coalition. President Emil's zeal and haste Constantinescu and the determined secondment of Mr. Adrian Severin opened in May deep wound in the being of the Romanian people and they sifted our faces. Free The reunification of Romania, the dynamics of the Romanian Nation is seriously disturbed. They did the opposite, contrary to the history of the Romanians. That after this initials, Primakov's subsequent vociferations had no support, no one he cannot deny. We note a few more lines from Iftene Pop's text "The irritation was transmitted, curiously, to the power of that time, expressed among others in the press release of the Presidency, dated May 6, 1996, to which PNTCD issued response also through a statement (May 10) and a more extensive statement (May 16). Since the PNTCD statement contained a legal argument and scientific, original and difficult to fight ... "Only this somewhat more extensive statement is part of the Declaration to which Congress PNTCD, in January 1996, resigned (or rather renounced) and which, in May is used conjuncturally, and a few weeks after The Democratic Convention, led by the PNTCD, takes power, ignores it again, making no reference to the Molotov-Ribibroprop Pact in the Treaty with Ukraine. Through these observations, we in no way deny that Iftene Pop is the undisputed specialist of PNTCD in the issue of Eastern Romania annexed to the USSR and that he is the author of an excellent book on Bessarabia. Is PNTCD also a KGB party? No, but through the vacuum of Reunification Romania, due to the lack of a unionist program until the takeover of the Power, in 1996, then by renouncing the Molotov-Ribbentrop Pact, he served interests of Russia and Ukraine.

But Mr. Iftene Pop missed, we sincerely regret, the Declaration as well Of the Romanian Parliament regarding the referendum in Ukraine from 1December 1991. It should be noted that Gheorghe Gavrilă Copil had a important contribution to the drafting of the PNTCD Declaration of 25/26 Nov. 1991, which explains why Parliament 's statement is similar in spirit and text with the PNTCD Declaration. Of course, such a thing would not have been possible without one working with an FSN deputy, in two nights, deputy through which a few formulations of Gheorghe Gavrilă Copil were taken over by the others parliamentarians of power, as if they came from them. To the text of the Declaration Opposition MPs also rallied. She voted easily and quickly, so that President Ion Iliescu found out about it after the vote. He absolutely reacted unfortunate, irritated, saying that he knew nothing and that a great deed had been committed error. Power MPs have never made such mistakes. And not from part of the Presidency and the Government have not been committed. But the Opposition also left forgetting this statement. At that time, Ukraine was struggling to make ends meet independence. The Ukrainian delegates had voted in favor of declaring the Covenant Molotov-Ribbentrop null ab initio. The opposition was forced to question Power, including by simple motion or censure, for this problem, not to abandon the holy cause of all Romanians. It requires that we retain a few excerpts from this Declaration (published in time press, from which we mention free Romania from December 29, 1991, and in Chisinau, Country, no. 50, December 1991) „Given that this referendum would also take place in the Romanian territories-Bucovina northern, Herța, Hotin, preum and the counties of southern Bessarabia, The Romanian Parliament solemnly declares that these territories have been torn from the body of the country, and the Ribbentrop-Molotov pact was declared null and void ab initio, by the USSR, on December 24, 1989, and by the Romanian Parliament on 24 June 1991. Of course, it is Ukraine's right to hold a referendum for its independence, but this referendum may not be valid in regarding the Romanian territories abusively annexed by the former USSR, territories that are not they never belonged to Ukraine and are by law of Romania ... the Parliament Romania solemnly declares that the referendum organized by the authorities from Kiev in the Romanian territories forcibly incorporated into the former USSR respectively in northern Bukovina, Herta, Hotin, and counties in southern Bessarabia-is null and void, as well as the consequences his. The Romanian Parliament asks the parliamentarians and governments of all states, which will recognize the independence of Ukraine, expressly declare that this recognition does not extend to the Romanian territories mentioned ... The Romanian Parliament requests the government of the country to start with emergency negotiations with the Kiev authorities on

the issue of territories Romanian forces annexed by the USSR ". Romania had taken a clear step through this Declaration, recognition independence of Ukraine, but not on the Romanian territory annexed by Molotov-Ribbentrop Pact, recognition in accordance with the declaration Molotov-Ribbentrop Pact null ab initio, on 24 December 1989 and by to all deputies of Ukraine. Only this Statement was in contradiction with the position of President Ion Iliescu, with that of Prime Minister Petre Roman, through his foreign ministers, and with the Romanian ambassador of in Moscow, Mr Sandru, to the Helsinki Final Act in 1990 (When all the elements for the Reunification of Romania were gathered, inclusive enormous international sympathy for the unionist movement that is manifested on the scale of the entire Romanian people), in 1991 and further, position for which they did not apologize even today. They acted openly against all the Romanian unionists, on both banks of the Prut and otherwise, in sight, opposing them another opinion, of the officials, influencing millions of Romanians, primarily through television, which they controlled in entirely, but also through the press and radio. They repeated so many times about our country's commitment to the Helsinki Final Act, stressing that between the unanimously accepted principles of this Act are also those relating to inviolability of borders. There was a kind of threat to the unionists and to arouse against them some Romanians, as if the unionists were violating this agreement and exposing Romania to some danger. But the former comrades all knew all too well that the Act final in Helsinki provided for the possibility of changing the borders by good it would not have existed, thus rendering services to Moscow and Kiev and disservices Romania. The situation is obvious and without reply. The same characters live and today, thank you very much, marching in the high Romanian state bodies and at television and radio and in the press. This manipulation of the Romanians! About as much they showed respect and common sense towards those Romanians who believed in them, not knowing all the provisions of the Helsinki Final Act ?!

### **Leaks**

Undoubtedly, some Romanians were manipulated by the KGB, without being KGB members. And some are still manipulated today. But how many of the Romanians who have figuring out what it was about, they had the courage to nominate the person KGB or isolate her, remove her from the group she infiltrated? Of course, proof of KGB membership is difficult to do, but the work, according to Moscow's interests, it is not difficult to identify, so it would be simple to highlight it. At least to free some parties and associations from under control or influence of KGB members. Of course the KGB members are skilled, professionals. They have adapted to the freedom of opinion offered by democracy. A right that must be respected. But, it is well known that it actually

works for other interests. And yet he is silent. It is true that time works in favor of Romanians who do not play the game of Moscow. Moscow's game is different of some proximity to Moscow, for some Romanian interests. The game Moscow is not to be confused with the Romanian game. But what some Romanians they don't have much science and skill to do (it would be good to at least become deaf, to ignore and bypass the KGB members), make time, you KGB members being more and more elderly and with an influence, in perspective, more and more weaker. But let's not be fooled, the more it acts now, with efficiency and stubbornness (so some easier to identify), noticing that it is possible to return to government in Romania. How many Romanians know about some activities, party or association, that have been torpedoed, deviated or canceled by the KGB elements and yet shut up! Certainly the Romanian people it does not need such silenced. Through such silence I am a protective curtain for the KGB. But if some Romanians were directed by some huts, and cue of shame and fear?

### **To remember**

We stop here with the confessions. They had only one goal, to mobilize them on Romanians. God will bring the Reunification train back to the station Romania. But it won't last long. Those who have made mistakes in the past, willingly or unwillingly, suspected of rebuking his conscience, are asked to get involved and, but responsibly and honestly. It takes everyone for the big one exam, of Reunification, which we Romanians must pass. Without this exam we will never have an honorable image of ourselves either, nor on the world map. And rightly so.

### **ILIE ILAȘCU, STRONG MILITANT FOR THE REUNIFICATION OF ROMANIA**

Arrested on June 2, 1992, sentenced to death on December 9, 1993. From Ilie Ilașcu's final statement. He was squeezing the cage bars with his right hand and on the left was a tricolor flag, which he himself sewed into the cell. I was and remain a member of the Popular Front because of the struggle our reunification of the country, the restoration of Greater Romania, which the communist hordes destroyed it in 1940, it remains the order of the day. The fight keep going. While reading the sentence, Ilie Ilașcu shouted several times: Long live! Long live! Long live! Moldova! Transylvania! and Wallachia! Long live great Romania! Down the Prut border! Down with the Russian occupiers! After pronouncing the sentence, he shouted: Hate! I'm dying for my country! (Victor Bârsan, Ilașcu Trial, Romanian Cultural Foundation Publishing House, 1994, pp. 103, 105, 106). From the Statement of Ilie Ilașcu, registered after the pronouncement of the sentence, with a camera and broadcast several times on the stations television: I want to thank everyone in Romania, the brothers in Romania, international fora that have taken a firm stand for

Goodbye, I love you Romanian people!

**THE MONUMENT OF NATIONAL BETRAYAL AND CRIME AGAINST HUMANITY, THOSE WHO SIGNED, SUPPORTED, OR VOTED FOR THE SUBMISSION OF THE MOLOTOV-RIBBENTROP PACT**

The project of the monument. Arms fused in prayer, until the height of thirty-three meters, rising to thirty-three years Jesus Christ in His Eternity, to Heavenly Father. This prayer is raised by Romania, which believes in the cooperation of our Lord Jesus Christ and His Mother, with us Romanians, in Truth and Justice. Of also in co-operation with all our saints and martyrs before and after Zalmolxe and Deceneu, with all our saints and martyrs, with our ancestors ours, from all times before and after Christ. By working together to those in this life, to those in heavenly life, we will reach, as always in the history of mankind, to prove that empires are not loved by I also ask that God himself is involved in their disappearance. The arms rise from geographical map of Romania. Around the document, on the pedestal, will be written the names of those who have signed, or voted the Treaty with Ukraine, without mentioning the Covenant Molotov-Ribbentrop. Thanks to this Criminal Pact, the USSR occupied a good part of the Romanian territory. Also the names of those who pleaded for signing, ignoring the Covenant, or supporting the aberration that the Covenant Molotov-Ribbentrop is no longer valid today, for Romania. Only for Romania, while the Baltic countries took advantage of it, freeing themselves from the Soviet empire, becoming independent. Although for Romania the deletion consequences of this Pact was ongoing. Cultivating a friendship authentic, by Ukraine, by restituting the Romanian territory, Romania would have made Ukraine one of the most prosperous countries. Not Romania is a danger to Ukraine, but Ukraine is its source instabilities. The danger for her comes from Moscow and the fact that she did not he knew how to make the European Union and Romania true friends. Of in fact he blackmailed the European Union and the USA, in order to accept his situation empire, through its duplicitous game, Ukraine being one of the founders together with the Russian Federation, the Commonwealth of Independent States. Romanian officials who accepted the ignorance of the Molotov-Ribbentrop Pact, have fallen into the trap of anti-European and anti-Romanian occult forces, regardless through whom this ignorance was inoculated. Those who signed, supported and voted the Treaty with Ukraine, without mentioning the Molotov-Ribbentrop Pact, they thus certified the removal from history of the crime against humanity, giving certificate of good

conduct to Hitler, Stalin, Molotov-Ribbentrop, the Nazis and the Bolsheviks, being in fact the advocates of their defense. But not for that there is prescription! The USSR, by this Criminal Pact, annexed in part or in full, Lithuania, Latvia, Estonia, Finland, Poland and Romania. War machine, once started, it did not stop until it encompassed the whole world. Pact Molotov-Ribbentrop was kept active by the USSR until 24 December 1989, when he declared it null and void. Automatically and Romania is entitled to take possession of the entire territory annexed by this Pact. Ukraine knew that the European Union, NATO and the US were working to limit the Russian Federation's threat to the U. E., making it easier to achieved, by supporting the independence of Ukraine, and in the future, by Ukraine's integration into the U. E. Knowing, he tried to blackmail the EU and the US to his accepts the borders based on this Pact. EU and US, out of any no doubt, they are not advocates of the defense of the Nazi-Bolshevik Pact. But, totally Unexpectedly, the President of Romania initialed the Treaty with Ukraine, ignoring this Pact. The EU and the US had plenty of examples, and so did Ukraine knows very well, changing boundaries. Even then they continued border changes from the Baltic Sea to the Black Sea and the south Balkans, changes that will lay the foundation stone for a prosperous future and peaceful for the whole of Europe. For the whole of Europe? Not really, because the changes stopped between Ukraine and Romania. In recent years they have modified the borders between Lithuania, Latvia, Estonia and the USSR, between the Republic Moldova and the USSR, between the two Germanys, between the Czech Republic and Slovakia, between Slovenia and Serbia, between the Republic of Macedonia and Serbia. With different situations. The United States had never recognized the incorporation of the Baltic countries into the Union Soviet, but they recognized and recognize that both Bessarabia, and the north Bucovina were annexed on the basis of the same Molotov-Ribbentrop Pact. It but one can easily notice that both recognized boundaries have changed on all sides by the Paris Peace Treaty of 1947, or the Paris Agreement Helsinki, as well as borders not recognized by the US - the case of the Baltic countries. May much, the consequences of the Molotov-Ribbentrop Pact, in the case of Romania had been partially removed, by the separation of the Republic of Moldova from the USSR. With other In other words, it can be said that for Romania, the phenomenon was ongoing. The Peace Treaty of Paris of 1947, the USSR imposed the wording that the border between the USSR and Romania is the one established in 1940 by the "agreement" between the USSR and Romania. By the word agreement, the USSR wanted to hide that border it was imposed by the ultimatum given by the USSR in 1940 on the basis of the Pact Molotov-Ribbentrop. The USA and in the case of the Republic of Moldova had the same

opinion, as between Ukraine and Romania. It was in front of the borders of the USSR established by the Treaty of the Paris Peace Treaty and the Helsinki Agreement. That's why he did not hurry to recognize the independence of the Republic of Moldova. A State Department source of The USA claimed that "the problem is complicated by the fact that Moldova does not include all the Romanian territories annexed by the Soviet Union "(Why not I admit - yet? - United States independence of the Republic of Moldova – Country no. 39, September 1991). The others had been incorporated into Ukraine. And yet these US will recognize these border changes, will recognize R. Moldova. We emphasize that the Independence of the Republic of Moldova occurred before 1 December 1991, when Ukrainians, in a referendum, vote for independence (On August 31, 1989, the Romanian language was proclaimed state language in the Republic of Moldova. On Sept. 3. 1990 the position of president is created of the republic. On May 23, 1991, the Moldovan SSR became the Republic Moldova. On June 23, the Parliament proclaims the sovereignty of the Republic Moldova. On August 27, 1991, Parliament proclaimed Independence Republic of Moldova. On December 25, 1991, Gorbachev declared that the USSR it ceases to exist. On March 1, 1992, the Republic of Moldova was received at the UN). As can be seen, in the face of the firm will of the two governments from Chisinau and Bucharest, the United States changed its mind, recognizing the Republic of Moldova, in other words the modification of some borders recognized. Thus, in this part of Europe, the road to normality. But in 1996, in the year of signing the Treaty between Romania and Ukraine, what was the US position? Same. Mr. E. S. Alfred Moses, Ambassador He told the United States in Bucharest, "What I wanted to say is that it is too much late for border changes. The borders between Romania and Ukraine are established. They are recognized by the Helsinki Agreement, signed by Romania. The issue of changing borders in Europe has closed, without the possibility of reopening. "Mr. Alfred Moses expressed his hope that Romania, Russia and Ukraine will reach an agreement on denunciation of the Pact, "odious, detestable, agreed between two regimes totalitarianism ". Neither the President of Romania nor the Romanian diplomats detained pay attention to these statements. It is clear that Mr. Alfred Moses had to do it this statement, to remain the borders as they are, so in favor Ukraine to meet the wishes of Ukraine. But Alfred Moses, a diplomat career, left two legal avenues for pleading the Romanian cause, if the Romanian officials, as, however, it was supposed, would have engaged on this road.

1) The borders are recognized by the Helsinki Act also signed by Romania. Romania. The US Ambassador refers to this agreement. It is known that just

this agreement offers the possibility to change the boundaries by agreement between part.

2) The Molotov-Ribbentrop Pact is declared without any restraint, odious and detestable. Expressing the hope that Romania, Russia and Ukraine will arrive to an agreement on the denunciation of the Pact, expresses the direction negotiations. Romania was armored. She needed tact, firmness, and protection in front of the whole world, the Helsinki Accords and the Molotov Ribbentrop. Romanian officials did not take into account that this Pact is odious and detestable. On the contrary, they covered him up. Terrible responsibility and detestable, in the entire international political life. Once again, Romania's image was damaged over the long run of history. But here is one country, Ukraine (In fact the western USSR empire), severely contaminated by the imperial microbe Soviet, he insisted and wanted to erase from the memory of the whole world, the Pact Nazi-Bolshevik. Why? To remain the beneficiary of this Pact. And who supports her? It is incorrect to say Romania, but some people which through the contest of special historical and political circumstances, have arrived at the head of Romania, led by Mr. Emil Constantinescu, the president Romania. He trampled on the two precedents of even the two Romanian states, Romania and the Republic of Moldova, since 1991. The first, the Declaration of Independence of the Republic of Moldova, has a clear reference to The Molotov-Ribbentrop Pact, for the entire territory of Romania annexed by The USSR, and therefore the one that is still included in Ukraine today, the Republic of Moldova itself being constituted by the USSR on a part of this territory. Second, The declaration of the Romanian Government, also from 1991, by which it is recognized Moldova's independence also unequivocally refers to the Pact Molotov-Ribbentrop, the recognition of the Independence of the Republic of Moldova being considered as a decisive step towards the peaceful removal of the adverse consequences of the Covenant. How come the man at the head of Romania, he trampled on these precedents, openly acting against interests the Romanian people? Ignoring these two statements is enough to be excluded from any explanation, now and forever. Just a few months before by the general elections, in 1996, the Democratic Convention of Romania, whose the president was Mr. Emil Constantinescu, he successfully opposed the signing Treaty with the Russian Federation, as it did not denounce the Molotov Ribbentrop. And something like that mattered a lot, with the electorate voting for one future president of Romania. Which, just a few months later in the year 1996, after he became president of Romania, in an astonishing hurry, he told us put everyone on the accomplished fact, acting contrary to the CDR attitude of before the elections. Which gives us the right to wonder if not it is also in the service of foreign interests (Moscow-Kiev). How to

reject this question, when the head of the Romanian state, defying the Romanian people, asked deliberately serving the heirs of the Nazi-Bolshevik Pact? He did services European Union, USA, Romania? No way. Only Moscow and Kiev. Even if he tried to throw dust in the eyes of Romanians, there would be some interests of the EU. And that countries with territorial issues between them will not enter the EU. Ukraine has territory to return! It was and is impossible for Ukraine access the EU with full rights. But to him, Mr. Emil Constantinescu he also acted against the healthy, de-escalating part of Ukraine. Healing the imperial microbe. We have all the deputies in mind Ukraine in the Congress of People's Deputies of the USSR, which at 24 December 1989, they voted unanimously to declare the Covenant Molotov-Ribbentrop, null ab initio. That's how President Emil Constantinescu supported the Bolshevik-imperial forces in Ukraine. It will recover the Russian Federation, economically and militarily? It means he'll pick them up, sir Emil Constantinescu a monument. So is Kiev, through those citizens you have Ukrainians who have forgotten the fate of empires and continue to have. Of course, the most exposed of these situations is Ukraine. Westerners know to appreciate honesty, respect for truth, and justice. Ukraine May represents, through its foreign territory, a real danger to the EU and a temptation for Moscow, to approach, or annex Kiev. If Ukraine would have given up the two spearheads (through the Romanian territories) directed against Western Europe, as far as Slovakia, and on the Danube, to Serbia (and Bulgaria), today the EU would have advanced without any risk to the true borders of Ukraine and we have no doubt, would have invested heavily in Ukraine, including large sums. But he advanced, at first stage, only military, through NATO, in Poland, to increase its rank of defense. The possibilities and efforts follow, in time, to include the others Eastern countries in the EU. But the progressive integration of imperial Ukraine raises large question marks, the Moscow-Kiev risk being removed. Ukraine is not richer and more secure on its future with the Romanian territories (the north Bukovina, Herta, northern and southern Bessarabia and Snake Island), on the contrary. Ukraine has not won the trust of anyone, on the contrary. Through the Nazi pact Bolshevik, which benefits today, has not fooled the conscience of European countries and nor the United States, but he fooled himself. It maintains the signatories of the Pact, victorious in history. Worrying calculation error. The current boundaries of Ukraine keeps intact the chance of Moscow's military-strategic return Kiev, in the strategic relationship with the EU, almost like in the USSR, what it means that the EU and the US have not earned much, it seems. The risk of such a return, against the background of the impoverishment of the countries in the area of former Soviet rule, remaining outside NATO, is not ruled out. Moscow has very great possibilities for

maneuver inside Ukraine - in the Russian Crimeamake up 67% of the population, and in the whole of Ukraine the Russians are in proportion of 20-25%, compact especially in the southern half of Ukraine. It's clear that Ukraine was maneuvered in connection with the Molotov-Ribbentrop Pact, both from Moscow as well as from Ukraine. A Kiev-Moscow agreement, voluntarily or by need, creates again the old road of the USSR to Western Europe, without that EU and US to oppose. If the road to Slovakia and Serbia had beeexcluded, by returning to the correct borders, before the Molotov Pact Ribbentrop, Moscow would no longer have dreamed of imperial restoration. People Ukrainian was also exposed to extinction by the Russian Federation. Save Ukraine passes, towards the EU, through Romania. Just giving up the annexations made through the Molotov-Ribbentrop Pact

## SOME DOCUMENTS AND ARTICLES

### The Prut of our tears...

The entire Romanian breath, between May 1 and 9, will be in the Prut, through delegates from the cities and villages of Romania, in a real pilgrimage, testimony of the decision to erase the wounds of the past and to participate in shaping a new worlds of justice and peace. The initiative and organization

committees will appear spontaneously, from now on, in factories, institutions and the rural environment, so that the representation of the whole country will be full. Those who will travel a long time, from Maramureș, Oaș, Crișana, Banat, Oltenia, Muntenia and Ardeal, we will recognize not only by the tricolor banners, but also by the flowers in buckets of water. They will meet, in Prut, with those from Dobrogea, Moldova and Bucovina, in a total bundle of the will of the entire Romanian people. Such a state of mind existed under Michael the Brave, when he united the three Romanian countries, in a single state, under Alexandru Ioan Cuza, in 1859, during the Union of the Principalities and in 1918, when delegates from all over Transylvania headed for Alba Iulia, expressing and fulfilling the will to the entire Romanian people, to live in a single, unitary state, according to its multimillennial historical foundations. Likewise the Romanians from Bessarabia, through Country advice. The priests who will be on the spot, in the Prut, will bring, through prayers, thanks be to God, and those who remain in the churches in the parishes will pray also, God help us to fulfill our saints' aspirations. Christian, who acted from the soul of all young employees against the darkness of armed atheism. And Ceausescu's dictatorship broke down. In Prut it is about the anachronistic and defiant perpetuation of an inherited situation from the time of Stalin's dictatorship. The whole of Europe will be watching the events on the Prut from 1 to 9 May. It would be possible that by May 9, free passage over the Prut, without passports, without visas, without taxes, to become a legalized framework, an unequivocal sign of employment in Moscow on the road to the full resolution of the white spots between the USSR and Romania. If all domestic and international conditions are met, we believe that Moscow will pass this test of truth as well.

We understand that in our actions we must take into account the boundaries behind World War II. It is necessary to observe, however, that the Prut is it is, in fact, the boundaries imposed in 1940 in the context of the treaty Ribbentrop-Molotov, by which the Romanian people were divided, in a way abusively, in two, the Romanians from the Tisza plain to the Prut and the Romanians from the Prut to the Dniester. **Transcript of the talks given by the President of the Cultural Society Bucharest-Chisinau, Mr. Gheorghe Gavrilă Copil, at the Ministry Education of the Russian Federal Republic, at the Committee on Science and Education of the Supreme Soviet of the Russian RSES, at the First Cabinet Vice President of the Supreme Soviet of the Russian SFSR (Moscow August 7-9 1990)**

**Gheorghe Gavrilă-Copil, President of the Cultural Society «Bucharest - Chisinau »** - As it is well known, since 1940, the Romanian people have been living in three states, in Romania, the Republic of Moldova and Ukraine, in other words in Romania, Northern Bukovina and Bessarabia. I arrived in the Republic of Moldova in a few weeks ago for the free schooling, in Romania, of a thousands of children from Northern Bukovina and Bessarabia. I asked for consent Education officials from Chernivtsi and Odessa. Both of on the part of the Republic of Moldova, as well as on the part of the Ukrainian officials, we have answer "yes". In the Republic of Moldova, the selection of children has come to an end. The process continues in Northern Bukovina and southern Bessarabia. From the side Romanian, the number of scholarships will increase. The Republic of Moldova and Ukraine have accepted to bring Romanian teachers to northern and southern Bucovina Bessarabia. Of course, without any rubles from Ukraine or the Republic Moldova. He was also accepted as a Romanian teacher in the Republic Moldova and Ukraine to go- for recycling or processing in Romania. So, after 50 years of separation, relationships are natural, normal and we all see that this is very good. For the first time, I think we can look at each other truly, sincerely in front, the Russians and the Romanians, in the problems of education. I arrived in Moscow, in a big and strong country and I have no doubt that she will know how to be a good girl by the minority of Romanians (of Moldovans) from the Russian Federation, on the line of education. We have heard that deeds have already preceded us, that minorities in Moscow are learning their language, so things are already starting. In the There are about 200,000 Russians in Romania. No one prevents them from cultivating mother tongue, from kindergarten to high school. The universities, of course, are in Romanian. But Romanians are between 500 thousand and one million in the area between the Dniester and Eastern Siberia. They are descendants of deportees from another time, or those who went to work out of necessity and that if

these Romanians, where they live compactly, if they learn in their mother tongue, he would find peace of mind, serenity, and work harder. Ea small minority compared to the ocean of the Slavic people, in which it is so

**public education of the R. S. F. S. R.** - Good. I would like to study the issue in a broader context, for a start getting acquainted, perhaps, with our main position on the issue of minority language present on the territory of Russia. It follows that the general concept is reduces to a multiple contribution. In any case, we do not intend to we forbid this or limit someone when the desire arises to study in their mother tongue, and more than ever, a series of organizational measures oriented, on the part of the Government, towards the solution these problems.

G. G. COPIL Perfect.

V. N. NOVICKOV In our country, in the hierarchy of subordination to the ministry, there are several institutes of scientific research and the largest of them, which possesses considerable scientific potential, it is the Institute itself that deals with the national problems of the school, which investigates the issue cultivation in their mother tongue would be like a flower in the window of Russia, in relations Russia with the other peoples. In Romania and other minorities study in their mother tongue, as is the case with the Hungarian population. And yet, the Romanian people are not weaker, on the contrary. And they are a small people. Now, we set off for Siberia, with the idea of inviting Romania or to Bessarabia and Bukovina, to the Republic of Moldova, those children Romanian-Moldovans, who want to study in their places of origin, in the language maternal. With officials in Odessa, the issue has opened up. Anytime children of Ukrainians in Romania, if invited from Ukraine, are free to came to study in Ukraine. The principle is valid for any of minorities. The question is: whether the principle of language study applied in Moscow can also apply to the minority Romanian from the Russian Federation. Russia can make this moral reparation very troubled people. It can even overcome the situation in Europe of the West, in connection with minorities. Romania and the Soviet Union are countriesneighboring, between them security and K. G. B. may disappear. They're just some human problems, easy to solve, so we can look ahead. about these are the issues for which I had the honor of being received. Eventually, if teachers could be brought from Romania and for localities in Siberia or beyond the Urals or anywhere, if they did not exist frameworks necessary for the beginning, as we bring in the Republic of Moldova and in Ukraine.

VLADIMIR BORISOVICI NOVICIKOV

**Deputy Minister of**

**public education of the R. S. F. S. R.** - Good. I would like to study the issue in a broader context, for a start getting acquainted, perhaps, with our main position on the issue of minority language present on the territory of Russia. It follows that the general concept is reduced to a multiple contribution. In any case, we do not intend to forbid this or limit someone when the desire arises to study in their mother tongue, and more than ever, a series of organizational measures oriented, on the part of the Government, towards the solution of these problems.

G. G. COFIL Perfect.

V. N. NOVICIKOV In our country, in the hierarchy of subordination to the ministry, there are several institutes of scientific research and the largest of them, which possesses considerable scientific potential, it is the Institute itself deals with the national problems of the school, which investigates the issue of education in the mother tongue, ie the very question raised by Miss. Currently, in the structure of the ministry, we set up special sections, which they will deal with national and regional issues. Of course, who will carry out the activity not only in terms of training in the mother tongue, but who will assume much broader goals - namely the rebirth of the school of national culture, history and tradition - we believe that during the period of stagnation the school was overly state-controlled.

G. G. COFIL I do not agree with the national culture without cultivation of the tongue, in fact, is doomed to extinction and instead of several flowers in one garden, begins to be only one.

V. B. NOVICIKO Of course. Let's say we didn't investigate to find out those who would like to study in Romanian on the territory of Russia, or to find out the number of students who would express their desire to learn Romanian as a foreign language. I have not done such research.

G. G. COFIL I am convinced that the problem exists. It's the beginning of a journey for Russia. Knowing that the problem exists, I came up with an extra good thought, just to be started in a concrete way.

V. B. NOVICIKOV Probably do not deny this fact and I just want to emphasize that the law that is recognized today in the country, according to whose language of instruction is chosen by the family and the child. To learn a language or other, is the sole and only competence of the family and we have no reason to refuse that part of the population of our republic, which is interested in studying in Romanian and we are ready to support these

initiatives. No, there were no obstacles.

G. G. COPIL There have been no obstacles in the last 2-3 years. But before, they weren't than obstacles.

V. B. NOVICIKOV B ut we are talking to you now.

G. G. COPIL In Ukraine, however, we found that even where the villages have Ukrainian language education, Romanian villages in Bukovina are free to open education in Romanian.

V. B. NOVICIKOV But let's be more pragmatic. I would like to materialize in which regions of Siberia have you decided to move to?

G. G. COPIL We would like to go to Irkutsk, Novosibirsk, Kurgan and Tiumeni. But we know a lot of localities, both in the East and in west of the Urals, so that if the Ministry of Education will want to cooperate, to to collaborate in completing the localities where Romanians live, we are ready, both those from Bucharest, the Cultural Society «Bucharest as well as the officials from Chisinau to submit a list of localities, a list which, without a doubt, it is incomplete.

V. B. NOVICIKOV We have already spoken, that we did not care, in particular, about this problem. I can tell you, though, that you're going to have meetings with compatriots, you will probably discuss the extent to which they are interested in what regarding the solution of the problems related to the training in Romanian, or any other form of language revival. And whatever the proposed option, we are ready to support it, to put it into practice, of course with that help from you. But if during your travels you will find localities with a compact Romanian population, let's say in Reg. Kurgan, we have no chance to put in the next 1-2 years books and textbooks available in Romanian. Because we don't have that. We are ready to agree on the issue in question, looking for the option optimal, cooperating with you without delaying in solving those discussed.

G. G. COPIL Okay. For a start, I will ask the Embassy of the Republic Moldova, from here, from Moscow, to contact the Academy of Sciences from Chisinau, which has already published several atlases of folklore, dialectology, ethnography. These are the localities, as many as could be researched, from the Dniester to Siberia, so an official, published record. It be the first documentary aspect for a record. So there are documents officials already appeared in the U. R. S. S. It is good to start from those official, the rest being quite large land, as it is still discovered the others will be taken into account.

V. B. NOVICIKOV Okay, but let's talk about language learning Romanian or about teaching in Romanian, I make a difference here.

G. G. COPIL Whether they are called Romanians or Moldovans, they are also Romanians.

V. B. NOVICIKOV This is not what I meant. We just have one special situation with minority languages. It can happen that any language be learned as an independent object - here is a variant. I'll explain.

G. G. COPIL In the country, national minorities, such as Hungarians, study all subjects in the mother tongue - Hungarian, - but also learn the language Romanian because they are citizens of Romania.

V. B. NOVICIKOV This is another step in assessing the problem, with much more serious. I limit myself to distinguishing the following steps, given the fact that we start from the beginning everything, on the territory of Russia, towards unlike Moscow. We have the opportunity to move after the next steps first, to be introduced in place, or in addition to other languages foreign Romanian language after the program. The second - learning the language in preschool institutions. Another option would be more complicated, it would need didactic literature for all objects in the school, meaning study full in Romanian. It is more complicated and can only be used for the second stage. Yes, we agree to collaborate, if the population of Romanians who live compactly on the territory of Russia will declare that he wants to learn and to teach children in Romanian. We have nothing against it. Nothing to us it may prevent us from doing so.

G. G. COPIL It is normal, these are times of great hopes, of great times joy and I have no doubt, that in the period of restructuring, when man is not is still afraid to express their desire, many groups, most groups of Romanian origin from the Russian Federation, will want to exist. Because if they don't learn their mother tongue at all, they disappear. Or, I wouldn't want Russia in years to come days, to feel embarrassed that only from its territory disappeared the Romanian minority, and on the territory of Romania and other countries from Europe, minorities exist. Russia could gain a great attraction, precisely by cultivating the spiritual values of minorities, it could have a great prestige. This small Romanian minority would be that binder of long-distance friendship, the race of the coming millennium, between the Romanian people and the Russian people. But so far, let's be exact, they were against the Romanian people exercised, with violence, a sum of deprivations. Let's be exact, it's about sons deportees. This means the obligation of moral reparations. Or not only deportees, but also those who were forced to leave their places Christmas. I, as a Romanian, have to look the Russian in the face and the Russian to me look me in the face, so that there is nothing left of that legacy which made us not be absolutely honest. This can be straightened out

the simplest formula, through the new generation. How do we raise the new generation? We teach them to forget the past and enjoy the present. The past does not have to still active, must he die? It depends only on the warmth of the heart of our generations today. I am convinced that Russia has a great future. It is not about conjuncture and diplomacy, at a working meeting, but it is a personal conviction and, I repeat, concluding, Russia can prove it now on, by the way

V. B. NOVICIKOV I am pleased to note that today in the talks our, there is no point where there could be a misunderstanding or any discordance.

G. G. COPIL Thank you! I came with total sincerity. In things of that way, no lie is good. Putting honor first, we have no problems in the future. It's clear.

V. B. NOVICIKOV Without hesitation, I can tell you that we have a good one understanding and not any understanding, any friendly situation, but one that it must be seen building on facts. Here, after the meetings on which you will have wherever you go, you will have to carry the desires and aspirations to learn the native language of those you will meet. We we are preparing a warm atmosphere for this purpose. Look, I think it's here opens up a prolific field of community cooperation. For all those who learn, we consider ourselves with you.

G. G. Copil I can't wait to return to the country to communicate To the Ministry of Education in Bucharest this good news that has the gift to reassure the souls of all, Romanians, Russians, so that we can live as we do not havelived so far, like absolutely true friends.

V. B. NOVICIKOV I consider, and I would like to believe, that meetings with Soviet citizens on the territory of our country will confirm and lead to solving the problems I had in mind here. I think so meetings, of course, will refer to those questions and issues that wewe faced today. I think the next steps will be the contacts they make known to our friends our position.

G. G. Copil I have no doubt about that. I'll just do it finding that everyone here regrets that these things were not done, possibly twenty to thirty years earlier.

V. B. NOVICIKOV Yes. But we're glad we started anyway. From now on we are on the same plane.

G. G. COPIL Mr. Minister Novikovici Vladimir Borisovici, you thanks! Here we are speaking the same language of humanity, of caring for children.

From this moment on, such a Minister is no different from The Minister of Education of Romania, or the Minister of Education of Moldova, by the Russian Minister of Education, because it does not exist delicate problems, there are only human problems that both solve. We wish you and your family happiness All the love!

- Take a seat, please!

We apologize, but we are in the installation stage. Only now do I received the rooms that were allocated to the Committee and therefore, please excuse us for the condition in which we receive you.

G. G. COPIL I know that here too things are in formation, as at Bucharest, as in Chisinau. It was very difficult for us to find this office. Maybe even Mr. Hasbulatov's office doesn't know exactly where it is, but I know that from what we are discussing now, it will certainly be well known.

V. P. ŞORIN And still very fast!

G. G. COPIL At least in Russia's relationship with the Romanian people.

**VORONTOV VALERII ALEXANDROVICI - Vice-Chairman of the Committee -**  
We hope that in Bucharest the cabinet will be found more easily.

G. G. COPIL It is a smaller country. I don't want to waste your time, so I would like to go directly into the subject. I've been in the U.S. for almost a month and a half. R. S. S. I came from Romania to the Republic of Moldova with a thousand scholarships for Romanians in Moldova, for children in the Republic of Moldova, to he came to Romania for four years to study high school.

V. P. ŞORIN If I understood correctly, Romania gave a thousand scholarships, so that students can study in Romania.

G. G. COPIL Mr. Vice President, I inform you that the Romanian people since 1940 following the Ribbentrop-Molotov Treaty, he has lived in three Romania, Moldova and Ukraine, in other words Romania, in Northern Bukovina and Bessarabia. Starting from this truth, I went in Ukraine, in Odessa and Chernivtsi, with the same problem in education. Bukovina and Bessarabia are the territories of Romania annexed in 1940. Ukrainian officials have understood us. They also agreed to take it children from Bucovina and the counties from southern Bessarabia, in Romania, to the book They also agreed to bring teachers from Romania to Bucovina and counties in southern Bessarabia. The same situation was approved, of course, in Republic of Moldova. I took a step further. We know that the Romanian people a suffered terribly, a large number of Romanians were deported to Siberia. Others were forced to find work in Siberia or other republics so that today they live outside Bukovina or Bessarabia, between 500 thousand and one million Romanians. They are the most horrified, the most troubled of us. For them I have come to you, with educational problems, viewed in two ways 1. Let we take children from Siberia to come to school in the Republic of Moldova or Romania. 2. Secondly for those bureaucratic, but never applied.

V. P. ŞORIN I believe that we must conclude an Agreement between the governments of R. S. F. S. Ruse and Romania. Our committee will help us in this sense.

G. G. COPIL I understand that I can, from now on, communicate to the Government Romanian your position

V. P. ŞORIN We reached an agreement in principle.

G. G. COPIL Of course, in principle.

V. P. ŞORIN An agreement in principle for the elaboration of an agreement between Our governments.

V. A. VORONŢOV The understanding that involves solving some technical-material problems.

V. P. ŞORIN And we want that, in the shortest possible time in the conditions of freedom in Romania, to prepare the project of such an agreement.

G. G. COPIL I think there are internal problems of Russia for such by law. But I understand that, for such a law, a collaboration is wanted absolutely open and sincere with the Romanian side.

V. P. ŞORIN And based on this agreement, we will work on the territory Russia.

G. G. COPIL Perfect. It's a total opening that I'm sure in the next 2-3 years, Romanians and Russians will be able to look freely in the face. As it openly means great happiness on both sides.

V. A. VORONTOV We never closed our eyes and always have were also willing to be kind to the Romanians.

G. G. COPIL It is perfect for the people who make up this Government.

This can be said, indeed, for the last 2-3 years. So no

always, but now, since we trust, otherwise it would not have come.

We believed in the answer you gave us before we started

Bucharest. And we started from the premise that not telling the whole truth,

it means making a big mistake. At the next step, bureaucracy, fake and

the lie would have been seen. Only sincerity lays the foundation that solves,

for the coming millennium, a good and restful world for all.

V. A. VORONŢOV The concrete problem for us is the inhabitants of the country and the Russian state, we want to know under what conditions they will learn.

G. G. COPIL We took students from Ukraine and the Republic of Moldova for 9th, 10th, 11th, 12th grade, so for high school. Our high school is 12 years old, providing them with free training and textbooks, meals and dormitories. bureaucratic, but never applied.

V. A. VORONȚOV It is necessary that this very serious conversation to have a transcript.

G. G. COPIL O Everything is recorded. We intend to bring to knowledge of the Romanian public opinion in its entirety, transmitting this to Television.

### **APELUL OF THE CULTURAL SOCIETY „BUCHAREST - CHISINAU“ to the Romanians from Siberia**

Romanians and Moldovans from Siberia!

The long-awaited times of truth and clear things have arrived in relations between Russia and Romania. The dialogue on thousands of fellow citizens, whose fate was to be mentioned on the territory of Russia, is worn today at the highest parliamentary levels. We, the members of the Society Cultural "Bucharest - Chisinau", we brought to Moscow news of the better an agreement was reached on the education of children in Bessarabia and northern Bukovina in Romania. I brought them thousands of scholarships - training, meals and accommodation will be free for the entire period of the four years of study from class IX to XII. These children, their parents, brothers and sisters are right free movement, from Moldova to Romania and vice versa. I left Chisinau for Moscow, after which I traveled through cities in Russia to meet Moldovans and Romanians living between Dniester and Far East. During

talks with the Minister RSFSR Public Education, V. S. Novicikov, with the President of the Commission for Science and Education of the Supreme Soviet of the RSFSR, V. P. Şorin, with the vice-chairman of this committee, V. A. Vorontsov as well as during hearing of S. B. Medvedev, assisted by the First Vice-President of the Soviet Union

RSFSR Supreme R. Hasbulatov has developed a common view on the problems of Romanians and Moldovans settled in the Federation Russian. The Governments of Moldova and Romania have been informed the content of these negotiations. I arrived in Siberia bringing long-awaited news

Romanians and Moldovans have the right to open their entire schools RSFSR territory, including Siberia, to obtain language training maternal. Although for a long time the Romanian and Moldovan languages were considered different, it is essentially a single common language for Romania and Moldova.

### **Romanian brothers!**

The Bucharest-Chisinau Cultural Society informed the opinion Romanian public, on October 25 and 28, that if our brothers over Prut will be brought into the situation to defend the integrity of the Republic through sacrifices of blood, then over a million Romanians we will cross the Prut, with medicines, dressings and as blood donors. Since in the Republic Moldova maintains the tension and forces that threaten its integrity territorial society continues to be armed, Bucharest Cultural Society - Chisinau proposes the establishment of detachments for protection territorial integrity of the Republic of Moldova. In these detachments they will have the possibility for all Romanians to register, regardless of whether or not they are part of any party and which party they belong to.

The eastern part of Romania, annexed in 1940, by applying the Treaty Ribbentrop-Molotov, signed between Germany and the U. R. S. S. in 1939, was

crushed in Northern Bukovina, the Republic of Moldova and the southern counties Bessarabia. Now they are also trying to divide the Republic of Moldova! Moscow included Northern Bukovina and the counties of southern Bessarabia in Ukraine. He could not include them in Russia, because between Russia and Republic of Moldova, a "republic" for the Russians, is trying to create, far away from Russia, a mini Russian state, a Trojan horse inside the European continent. To mislead the public European and world, another mini-state was set up for Gagauz, also on the land of the Republic of Moldova. I live in the Republic of Moldova about one hundred and fifty thousand Gagauz. Through the attempts to form states, it is pursued destabilizing our continent, tearing the territorial integrity of countries from Europe. The Bucharest-Chisinau Cultural Society does not interfere in affairs internal of the U. R. S. S. The Soviet Union mixed and mixes in Romania's internal affairs, since 1940, when it occupied the East Romania, ie Bessarabia and Northern Bukovina. By the Ribbentrop Treaty - Molotov, Moscow continues to violate the holy right of peoples to freedom and self-determination on their own territory.

The Baltic States, Northern Bukovina, the Republic of Moldova and the counties of southern Bessarabia are annexed territories, forcibly incorporated into the U. R. S. S. Until the Ribbentrop - Molotov Treaty is annulled in practice, until when the consequences of its application do not cease, the U. R. S. S. remains a state aggressor, who continues to trample on international law, law peoples to territorial integrity, self-determination and freedom.

**STILL VII IN THE ICE EMPIRE**

In the summer and autumn of 1990 I was in Siberia on a first contact with Romanian deputies from 1941-1953, from the Republic of Moldova, and with non-deportees Romanians in recent times. The Romanian people, bloodied, are coming down on the cross. Right palm, on the wood of the cross - Northern Bucovina. The left one counties in southern Bessarabia the crowned forehead - the Republic Moldova, heart and body, from the arbitrary border on the Prut to the western part of Romania. And each deported, just like all of us, is a crucified one, but with much greater suffering than those left in hearth of birthplaces. In Siberia, looking for places where deportees and non-deportees are Romanians, I covered a geographical area, according to some opinions, larger than the western half of Europe. But let us be silent and give them the word martyrs of the Romanian nation. God help me not to go crazy And they took us out of our houses at night. They pushed us with weapons beds. And they took us in the cattle cars. I was not to blame. I was at home. Under the furrows of the ancestral glia, the bones rest our grandparents, ancestors, for

thousands of years. In the time of Herodotus we were also here on the Dniester, and we were also engaged in agriculture. When they came the Russians pick us up, I've been married for about two years. My wife just he had gone to the neighboring village, a short drive of about two or three miles he was out of place to help his mother. And he never came back. They told me it was sick. Well, my God, but how could she be sick, a thought pierced me like a red thread!-It's me, if you give a glass, I tell you, then you give even more. him it's bad, but good, mm! Signs that God has taken pity on your home and a adorn with babies. Your mother-in-law asks you to forgive her, she is to blame your wife stopped you. But in the morning they both come to order in your household and teach you to be gentle and kind. Good Sara!

-Good Sara, I replied. The last good jump in my life. I don't have one never seen his wife again. Me, mine. But what do you think, the other men and have they ever seen their wives and children? Those in my village. They took us to the train station all, men, women and children. And they separated us. One train with men and another with mothers and children. They knocked on the windows, closed the doors, put them on security soldiers. Weeks in a row, melted by hunger, thirst, the state of animal, in which we were forced to live, locked in wagons ... But the cross of pain it was not that of hunger, crowding and lack of any sanitary conditions, but of concern for wives and children. God, help me not to go crazy, now, when I remember, after decades of bitterness and alienation, everything through which I have passed, now that I remember, my country. After about three weeks of travel, at a train station, where, I don't know, the men's train, shocking incident, meets with wives and children. What the shouts, what pain! A minute or two, like a century. We, here, I think, are about ten to fifteen thousand miles from the ancestral land. Not here we have no cemeteries, no priests, no schools. I was just a laborer. We were at least men. But women and children, their lives in deportation?

### **Free citizen of the U. R. S. S.**

The men took us to labor camps. The years passed. Us they were crushing with the work. And I was resurrected. I knew nothing about children and wives. I am among the few I learned of their fate. But behold, I am again in Siberia and no one knows anything about us here. We are forgotten by the world, by it's like we're on another planet. Maybe we are. About ten years have passed since we were deported. The times had softened. It was his time Khrushchev. And, word for word, we were told something. I took the floor and I started plowing in front of the colonel, saying yes, I want to be home again, on the doorstep of my parents' house. Everyone else was shaking. And in me the soul trembled. "- Good. Take him and take him to the station, "said the colonel to some soldiers. And indeed I was left, and returned to Bessarabia. Those in the camp they did

not know if I was free, dead, or moved to another camp. I don't know now I explain, but my wife also came out in front of the camp commander to be let her write a letter, if I'm right that times have softened. They gave it to him paper. And he wrote at home. They took his letter. I was in the Irkutsk region in the Tyumen region, a few thousand kilometers from each other. And me and I received her letter on the doorstep of my parents' house in Bessarabia. They were given to me ID card, free citizen of the U. R. S. S. And I started, like a lion, back to Siberia to see my wife and children. And I found them. The militiaman has me asked for ID to see them. ”“ Yes. OK. Free citizen of the U. R. S. S. “. He stopped my documents. I thought for an hour or two, or until the next day. He never gave them to me again. I became a slave in Siberia again. Without documents, you can't travel. He would have shot me. And where to go without a wife and children ?! Slave for life The deportee in front of me, white, with a wrinkled face, bark, with fingers clasped in endless work, startled. He didn't say more than the following words, after which, tangle of tears and pain, did not no more questions. He was silent and silent again, a silence that shook me and it turns me on now and how many days I will have. - Romania, Mother, asks me about my wife and children. Mother. After that meeting, I decided to visit the place of deportation of his wife and children, the place where he became, for the second time, a slave on life. We set off for Obi, a huge, frightening river a few more times & 1 larger than the Danube. To an island that no ... tourist goes to. A huge island? Or a peninsula? I do not know. Very few houses, a simple alley and both. And I ask from house to house and I take the houses one by one and again and again. I knew what I knew ... And I went from house to house again. When God wills, He brings you the man you need. And he brought Obi up and left him on the island. One of the ones I was looking for. And the houses have loosed their tongues and their fear, stored deep, ocean of suffering, erupted outside. They have for months climbed Obi up, ship after ship, with mothers and children from Bucovina North and Bessarabia. And they did not leave them in one place, but on one bank, and then on another, further, small groups, to lose track of them, to serve, but not let the nation survive, but only as arms of labor. Here, they were huddled about twenty souls in one room. In this group they have there were several girls, still fourteen or fifty-five years old. And they have them gathered together with others and took them and took them to the forest to live there for seven to eight months, during the winter here. Winter with snow up at the waist and up to the shoulders and at minus fifty degrees Celsius. House live, they had no choice. Either they become woodcutters, or ... They were just some kids. They clung to life. They have become, over the years, cutters of forest, eight months a year. In the summer they returned to the few houses and worked at in the field, at potatoes, or at a

fish processing plant, on land, where they arrived by boat. No, not with a ship, with a ferry. And I rummaged through my soul again. They were hiding something. I had landed in space and I was asking and they knew nothing and were silent. But God knows them in advance.

### **Living with boiled grass**

-I'm one of the sons you're looking for, but you came too late, A man still in full force, who had come behind, began to depend on his memories mine on the island. My mother is no longer alive. I was about nine years old then. When we were left on the island, my mother and the other mothers, so as not to die hungry, they boiled grass for us. There were only four or five houses here. Some Russians lived, deported in the 1930s by Stalin. I made the other houses together. And now there are few ... How do you know about the missing? Or more Well, do you know anything about them? What do you know? I was silent.

-Okay ... The deportee resumed his thoughts. Ours worked at fish factory. He was very hungry on the island. How hungry, when Obi, at least then, had as many fish for a country?

-Yes, he had as much for a state, for a slave-owning state.

The state had everything, we had nothing. No fish. And yet, in desperation, in the heels of the boots, another fish was hiding. One at a time, no more. With the thought that, for a single little fish, the perpetrator will be discovered, perhaps he will escape with a bearable punishment. With a little fish you can save your baby. And I don't know how it happened, but the ferry pulled ashore again and they went down a few, who came near our miserable houses, just as babies they were pulling a fish with their teeth. The whole shift, the factory workers, fifteen people, was taken.

-St ...

-- Not. Never. Nothing was heard of them.

You were a child. I want to talk to witnesses who on at that time they were in full maturity. There must have been someone else present, Except for you kids. Must! Heavy silence. All around an ocean of wilderness, which surrounded a few houses.

-I know that there were Russians among the missing. Of those who lived here by through the thirties. Know. And I said a name. They remembered the family I was referring to. I rode for many days in the city of regional residence until I tracked down the wife of one of the Russians missing. God wanted me to stay alive, to meet to testify about her husband and about the Romanians. He's ninety-one two years. And he hugged me and spoke to me from the bottom of my heart. Me confessed that he had been waiting for someone all his life. Through me he understood that I am not forget it. In Romania, therefore, more

is known than in Siberia, about the tragedy happened on the island of misfortune. But that Russian's wife had sons. And grandchildren, big, barely married. And the daughter of Mother Russia, that's what I told this Russian woman deported, he remembered his father and the little fish he had escaped from the hands, when some people came and took his father for always. And that silence again. And how not to hit a hard wall Silence? It is enough to ask two questions to understand everything.

-Who are the people who came from the city of residence regional, on the island and finding that the babies of the deportees had in their hands a fish, they picked up the fifteen people, girls, mothers and men and have they gone forever, somewhere? They know the fate of those arrested. The second question

-Who threatens the deportees, or their descendants, when are they trying to find out the truth?

We will return to this island when we do not know either. We wish her well unhappy wives and mothers, many years and health. Maybe one day here in Romania, we will send him a magazine, or a book with moments from her troubled life.

### **ANOTHER VII IN THE ICE EMPIRE (II)**

I started Obi up, in the footsteps of the girls and the lads, flowers of the Romanian nation, barely enriched. Obi, in winter, cover with a layer of ice of a meter and a half, up to two meters. Cars pass freely on he. There are many lakes in the region. Far, far away ... The deportees ended up in a village full of snowmen, as they were understood ours, a kind of Eskimos of the place, the natives. But as soon as you get tired, they have were divided into two groups. Mothers with small children stayed put again the eastern girls and boys were put on sleighs and taken for six months, one hundred and two kilometers from the village, leave it there to fish and live in a round hut, typical housing for those places. They were digging in thick ice three stitches. They were pulling the fishing net under the thick layer of ice. The fish reached the surface and suddenly froze, bent, like a moon. You had to hurry to freeze it to its natural length, otherwise it could not be stacked. Outside, in the open air, they lived like in a refrigerator. The children of the Romanians on the Dniester, taken from their parents' hearth and taken to Obi up ... When the sleighs came for the fish, the stacks were measured. If the norm it was fulfilled, they received the bread of survival. All the young people lived in that hut. The boys undressed first and covered themselves, then the girls. They were of shyness and common sense. They warmed their feet all

around a sob. Romanian boys, men and women, who arrived in Siberia, complained about he shouted, telling them that they were innocent, that they had absolutely no guilt. They begged him to behave with a little gentleness, as in the presence of honest men. But from one day they did not complain. All Romanian deportees were sentenced to twenty years of forced labor. Stop complaining that they are innocent! A the convict has no right but to endure, or to crack. - - But to escape, haven't you tried? Where to escape? Wherever you went, hundreds and thousands of miles! seats desolate. You didn't know where a locality would be. It caught you in the winter. Eight months of Winter. Death, certain death. The winter did not escape because of the snow. It was high to the waist, to the shoulders. And if you got to a railroad, how to do you get on the train You couldn't walk. They shot you without hesitation. In train station... how to approach Armed soldiers ... And yet ... There are people with souls like the starry sky. Always on the move, but always on top. On top all attempts. Camp, like any camp, with armed, guarded militiamen, and Wolf dogs ... Here, some young people tell us I'm ready to go. They are preparing for escape. Determined, we decided to help them. They worked outside the camp, in forest. The young men hid in the snow, like in a hut, and waited. They watched the patrols of the guards with fear. They had a snow-cleared corridor, which they crossed on skis. At the time accordingly, the young men in the snow hut stormed the soldiers. I take they fell to the ground and took their weapons. Don't kill us, they prayed. - "No, we are not killing you. We take your skis and weapons and you are free. Of what shall we kill you? "They rose from the aisle, above the high layer of it was snowing and gone. They walked and enjoyed the strong air of freedom. But one of them had his skis broken. In a short time, his skis broke the second. And the skis of the third. They stopped, captive, in the white ocean, bury your shoulders in the snow. Eventually they heard the barking of dogs. The soldiers came slowly, without haste, on skis. Between them, an officer. The boys were waiting, perished. A gust and done with them. The Russians surrounded them. The barrels of weapons pointed at them. "- Not I knew until today that the Red Army is so strong, "he said one of the escaped lads. The officer began to laugh. Then the soldiers. They put the weapons on his shoulder. They brought them to the camp. They didn't do anything to them. Found the young man the magic words that saved them. It was God's will. So we found out we didn't have to escape on skis. The soldiers in the forest, not them either they could escape. Their skis did not withstand above, on the snow, but just down the aisle. That's why the skis broke and with them, the strong air of freedom has disappeared. Tracking patrols had normal skis, resistant.

-And yet, no revolt, no escape?

-Some hundred dead. I can not speak. I can not. Only Romanians one and one, under the bundle of cartridges, long bursts. Piles of bodies, of living flesh. He was a Moldavian Romanian from Balti, named Durlea Valentin. Decided mass escape. So disarm the militia. Then they were going to release and other camps. Those who plotted the escape began to ask to the right, on the left, by Romanians. But they had pretended to be Russians. And the lads held it, one good thing they are Russians. Hearing what Moldovans are talking about, they are they untied their tongues and declared themselves Romanians again. Five hundred Romanians ready to escape! The day before, in the evening, they were sold. Betray. It is not known by whom. At dawn, without suspecting, the vending machines have them chopped all, a hill of bodies, from which flowed the blood. There, between those shot, they were also the leaders of the escape. The camp commanders did not know nothing about the existence of these leaders. It is clear that they had only learned of Durlea Valentin. He was not shot. They took him to solitary confinement for a year, without any means of fire, only with water and some bread. They wanted to destroy him from the inside, to them it destroys the soul. It didn't freeze, it didn't die, the ghost arrived. After a year, when they have it brought before us, it was a kind of scarecrow, as they put it in holde, let the birds not eat the wheat. His ribs hung from his shoulders, his cheeks sucked, covered only with skin. A cloth. If no one was holding her, yes he was crouching on the ground. They left him in our midst. And, unbelievably, life had not died out in him. It sprouted again. He recovered. He had been a circus fighter. Upon arrival at the camp, he jumped back and forth, over his head, without touching the ground. It was a force. Nobody slammed him. He defends the Romanians. The camp robbers calmed down. Him he was throbbing. And the militiamen were afraid of them. Now the survivors, him I was feeding like a child. His body was on the ground, but his soul above, above, like the starry vault. And when his body was strengthened, he prepared himself for the journey to the house. Of course, he arrived in his native village and may still be alive today if not, he rests under the furrow, with our grandparents, and his soul it is above Romania, on guard. Every time I see the vault full of stars, I know that he, Valentin Durlea, from Bălți, born in Râșcani, is at home. And how many times I see the starry vault, I know that Romania exists somewhere far away, at ten-fifteen thousand miles, where I will never get. But here in Siberia, live many young people, flowers of the Romanian nation. Maybe they will that's enough. This material, among others, brought by the signatory of these pages, from Siberia, will be the basis of a political theater show - Romanians in Gulag - which the director Andrei Vartic, from the "Alexei Mateevici" Theater, dreams of mounting it in Chisinau.

### **ROMANIANS FROM ACROSS THE PRUT MUST PARTICIPATE IN THE GENERAL ELECTIONS IN ROMANIA**

**Leonida Lari - Mikhail Gorbachev**

A few days after December 22, 1989, after the victory of the Revolution Romanian, Leonida Lari, Grigore Vieru, Nicolae arrived from Chisinau Dabija, at PNT-CD, guided by the star of hope. I wanted to meet PNT-CD and, in particular, the person who, on 23 December, had addressed To Moscow a message in which he claimed that the Revolution belongs to the Romanians being able to complete it alone, the military intervention of the troops Soviet in Romania being, therefore, totally and utterly inopportune, and, on the on the other hand, free passage over the Prut was required, between Romania and the RepublicMoldova. In the second message, a memorandum addressed to the Congress of Deputies the people of the USSR, signed by the same person, on behalf of the Committee National action Bucharest - Chisinau free passage, become a committee subsequently the Bucharest-Chisinau Cultural Society, Mr. Eduard Sevardnadze, replied, in Bucharest, on January 7, 1990, that at the highest level a series of conversations will begin, so that the

people of Romania and the Republic Moldova, to be able to have contacts without difficulty. Unfortunately, from the side officials in Bucharest, no one went to Moscow to visit answer, to perfect the free passage over the Prut. It was obtained from the beginning, which has not been achieved even today. Deafness at the diplomatic initiative, in following our work, and the visit of the USSR Foreign Minister to Bucharest, was motivated by the people I talked to, absolutely dishonorable Mr. Child, don't you know what it was then? What to be? The fight to maintain and strengthen the power of some people, do not fight in the name of the Romanian nation. If it was for the cause of all the people Romanian, then we would have obtained from the start, the free passage over the Prut, and people who wanted to consolidate their power would have it, basically an indescribable national enthusiasm. On 24 December 1989, the day on which the Treaty was annulled Ribbentrop - Molotov, by the Congress of People's Deputies of the USSR, During a break in the Congress, Mikhail Gorbachev beckoned to the Romanian deputies to approach. He had in his hand the message sent from Bucharest. He shows it Leonidei Lari. Only half of the text, the other half being on the sheet bent over the back of the palm. He reads the passage from which it appeared that the troops Moscow is not wanted in Romania and tells him that such will not be sent troops. Leonida Lari's soul was flooded with boundless joy, and in Tears of joy and sparks of hope came from his deep wounds of the Romanian nation, which the poet carries within himself, like the snowdrop it encompasses the roar of the sea.

### **Mihai Gorbachev against the natural development of history**

Only Mikhail Gorbachev had cheated. The word must be understood ad-literam The half hidden behind the palm was not related to non-intervention Soviet troops, but with free passage over the Prut, between Romania and Republic of Moldova. Lari, after leaving Congress, saw the whole thing text, published in the press. A powerful revolt took over his whole being living being. He eagerly awaited the next opportunity in the plenary of the parliament of to the Kremlin, to interrogate Mikhail Gorbachev and prove to him, in a publicly, the grave guilt committed towards the Romanian people. There is no doubt that Mikhail Gorbachev was aware that he was not honoring Congress either, which annulling the Ribbentrop - Molotov Treaty, implicitly recognized the right to freedom, of Bessarabia and Northern Bukovina, respectively of the Republic of Moldova.

-Romanian territories occupied due to this treaty. A corner of his soul Gorbachev, a dark place, enslaved by imperial darkness, was and will be it remains against the natural course of history.

**If Leonida Lari had known the content of the whole message ...**

If Leonida Lari had known the content of the whole message, she would have had immediately the opportunity to speak at Congress and propose for free Congressmen, canceling the treaty, was expected to approve this proposal as a consequence practice of annulling the treaty. Mikhail Gorbachev had felt that way, right for which he hid the part of the message that was directly related to the proceedings of the Congress. At this congress the discussion of cancellation began The Ribbentrop-Molotov Treaty, on December 23, the very day it was he was sending the message from Bucharest. We repeat, the annulment of the treaty took place on December 24, while Mikhail Gorbachev had this message in his hands.

### **Three thieves from the East**

Along with the leaders of PNT-CD, he was present at our meeting with Leonida Lari, Nicolae Dabija, Grigore Vieru and Nicolae Lupan, just arrived from Paris. It was also too crowded for a small, cramped room. We hugged for the first time. I was shown the star of hope, which led them to Bucharest, the star in the sky of Romanian consciousness. And then, in public, I asked them if they wanted to run in the elections general, on the PNT-CD lists. They were silent, but their faces lit up so much obviously, those present burst into unparalleled applause. Three Kings from the east, they had come to the newborn baby, democracy, returned to the Romanian people through the Revolution. Then I proposed to the PNT-CD leaders to put them on the lists of candidates. It was later argued that there was no such law. To tried, if we are not mistaken, to pass a law, through parliament, for Romanians everywhere, but knowing that it is actually Romanians Bessarabians and from Northern Bukovina, was rejected. I asked PNT-CD to proposes, to Parliament, clearly a law for the Bessarabians and bucovineni. It was alleged that she would be rejected. If it were rejected, all those who would have rejected it would have had all the responsibility!

### **The star stopped above Chisinau**

But, behold, the new general elections in Romania are near. good God has been acting for a while, obviously, for the Romanians in the Romanian territories under Soviet occupation. The Republic of Moldova has proclaimed independence. Who would dare to speak out against a proposals to legislate the right to participate in general elections, a Romanians from the entire Romanian territory? Who would be against Mircea Snegur, Mircea Druc, Iurie Roșca, Ion Hadârcă, Valeriu Matei, Ion Ungureanu, Leonida Lari, Grigore Vieru, Nicolae Dabija (I confess, commit a sacrilege without mentioning many names, all Romanians of across the Prut), to run for any office and will have more votes many, one of them to be, in Bucharest, president, to be ministers, senators, deputies, general directors, prefects, mayors, etc.? Let's understand how it deserves this chance that God gives us. If

part of the deputies from Chisinau are still deputies from Moscow, so deputies in the parliamentary body of the occupiers, why there would be no deputies in Chisinau and in Bucharest? The bells of the Union are heard in the hearts of Romanians - 1859 and 1918. AL's double choice. I. Cuza is a major precedent in our history and acts with a "genetic" effect on the spiral of Romanian history.

### **Who would dare say no?**

Who would dare say no? Just maybe some adventurers who, aiming power, they would be afraid of the electoral competition of the Romanians in the Republic Moldova, from the south of Bessarabia, from Northern Bukovina, from Maramureş over the Tisza and from the land of Herta!

### **To all parties, unions and associations in Romania**

These lines will be a call to all parties governmental and non-governmental organizations, to trade unions and associations, to act from within the Romanian Parliament and from outside, because a such a law, the Triumph Gate of Reunification, should be approved as soon as possible quickly, so that the Romanians from across the Prut have the necessary time to prepare the election campaign. We have been, are and will be forever, one people, here on the Tisza to the banks of the Dniester, always at home. We have none finger of earth from others. At home we manage according to the laws of the house, the laws of a gentle and industrious people.

### **PARLIAMENTARIANS FROM CHISINAU, MAJORITIES IN BUCHAREST**

Many times I have noticed the presence of the Lord in defense of the nation Romanian. The new Jerusalem is being built every moment, with all its opposition furious of opposing forces. Christ suffered through the crucifixion for all people, and now they suffer and act in solidarity in all people, on the road Golgotha the deification of the human being. I'm confident that for getting out of the tragedy in which the Romanian people are struggling, there is a divine plan. Lawmakers from Chisinau will have a majority in the Romanian Parliament. It would be kind of reward for those who have been deprived of the country. The entire Romanian people waiting for the place where they deserve, now, in the context of the general elections in Romania. Missing from the country for decades, they love her fervently. Suffering from tens of times more than the Romanians between the Tisza and the Prut, they are and will be better Romanians. Being hacked, from father to son, by the Soviet empire, but surviving, they have the experience of resistance, of open and hidden struggle with the aggressor. woundsthey are a guarantee for the existence of the

Romanian state. Only those who have fallen into captivity I value freedom properly. The parliamentarians from Chisinau are wait in Bucharest to exercise their duties to the entire people Romanian, not only in some of its counties. Romanians from the territories occupied are the diamond of resistance of the Romanian nation. God a prepared the great chances for us Romanians as well. They will take advantage of any delay the imperialists, to replace the old handcuffs with new ones.

### **ATTENTION TO MOSCOW, ROMANIAN POLITICIANS!**

Opinions about the armed aggression of Russia v. Moldova. We will not evoke them. But we will be late one, ignored by Romanian politicians. Exactly them! Moscow's aggression it is directly related to the general elections in Romania. By pressure Moscow has managed, at least so far, to block the initiative parties to pass on the lists of candidates for the Chamber of Deputies and The Romanian Senate, on the brothers from across the Prut. Appearance in Parliament from Bucharest of a few dozen Romanians from the Republic of Moldova would be a real one defeat of Russia, both in the short term and in the future. Moscow from legally, it cannot oppose. Romania now has this chance historical, to begin, through parliament, the detachment of the Republic Moldova in the handcuffs of Russia.

### **ILASCU must be released**

**Presidents Emil Constantinescu, Petru Lucinschi, Bill Clinton and Boris Yeltsin**

**To the Organization for Security and Cooperation in Europe**

**To the Romanian Parliament**

**To all the Parliaments of the world**

Ilie Ilașcu, the Romanian patriot arrested on the morning of June 2, 1992 and sentenced to death, by a staged trial, is innocent, fact found since then and to this day, by all international bodies and all the personalities who dealt with this case. We bring you to knowledge of Ilie Ilașcu's activity before his arrest, activity ignored by those who staged the trial. Ilie Ilascu was arrested from the family. He had no reason to hide. Exactly seven days before his arrest, appeared in the "Cotidianul" of May 27, the text entitled Appeal from Tiraspol, for helping students in war zones, of which we quote "Ilie Ilașcu, the president of the branch of the Christian Democratic People's Front in Tiraspol, having in view of the escalation of the armed conflict, following the

intervention in battle of the Russian Army (14th Army), calls on the students of this school (grades II-VII), to be received during the summer ... in Romania, thus saving their lives and avoiding taking some of them hostages. " Also in this call, the president of the Bucharest - Chisinau Cultural Society, who had visited the area of war from Tighina to Cosnita, proposes to bring students to Romania from the other battle zones. As can be easily seen at a few days after the arrest of Ilie Ilașcu, his humanitarian activity was in full swing deployment. He participates in this deeply humanitarian activity from the Republic of Moldova, the Christian Democratic People's Front and the Ministry Education, and from Romania, the Bucharest-Chisinau Cultural Society, So everything was public, there was nothing to hide. The children were dying in the field fight, or in refugee camps. Ilie Ilașcu was nominated for the Award Nobel Peace Prize winner, but did not get this title, which he deserves with abundance. We do not know whether the authors of the proposal also considered the evoked ones of us in these ranks. The question arises as to whether humanitarian activity in which Ilie Ilașcu had engaged had a completion. The first children taken out of the area of armed conflict and brought to Chisinau were even children from Tiraspol. The action was approved by the Government of Chisinau, by Mr. Nicolae Mățaș, Minister of Education and made by Bucharest-Chisinau Cultural Society. This after the children arrived in Chisinau, worked with the International Association for the Protection of Orphans, based in Deva and with the League for the Defense of Human Rights, from Timișoara -Deva branch, with which he brings them in a bus, in Romania, where the two leagues take them under their care This first humanitarian activity to save children, for reasons easy to understand, it was done without publicity. In this first transport, they were and the children of Ilie Ilașcu. Next, the whole activity of rescuing children it took place with all natural publicity. In this sense we quote from The appeal for Romanians held captive in the city of Tiraspol, signed in the name of the Board of Directors of the Bucharest - Chisinau Cultural Society, by Gheorghe Gavrilă Copil, Mihai Avădanei and Mihai Stanca, in Chisinau, on June 7 and appeared in the "Cotidianul" of June 19 "Considering escalation of the armed conflict in the eastern part of the Republic of Moldova, launched, on the initiative of Ilie Ilașcu, the president of the district section of the Front Popular Christian Democrat from the city of Tiraspol and Copil Gheorghe Gavrilă, president of the Bucharest-Chisinau Cultural Society, a humanitarian appeal to save the lives of children in and around the war zone. The appeal enjoys broad support from humanitarian associations and private individuals in Romania ... On June 14 it started with successful this humanitarian action, the first groups of children being already in Romania ... As it is known, the main culprits of this war of aggression against the Republic of Moldova, are the

14th Army and the Russian Cossacks, in other words, Russia's armed forces. Co-author of this action humanitarian, Mr. Ilie Ilașcu, is in captivity in the city of Tiraspol, city controlled by Russian military forces. We're calling ... for Elijah's release Ilașcu as well as his other colleagues ... The deed of those who kidnapped him, a has already been condemned by a vigorous protest by the International Christian Democrat, based in Brussels. "

The civilian population of the Republic of Moldova was going through tragic circumstances. Russia was trying to form a state within the state, Transnistria, on the territory of the Republic Moldova, as a possibility of pressure against Ukraine, the Republic of Moldova and Romania. Humanitarian work to save children continues „Among the over 40,000 Romanian refugees, victims of: intensity persecution and destruction unleashed by the Russians and Cossacks on the population civilians from the Transnistrian localities, the largest number is represented by children ... Now, over 500 children have already arrived in Romania. In the desire to help them as much as possible on Romanian children refugees in the war zone, the Cultural Association Bucharest - Chisinau addressed the Minister of National Defense, Mr.

„We consider that the Romanian army is possible: Lieutenant Nicolae Spiroiu fly honor not only on the battlefield, as he has done so many or in the history of our people, but also through humanitarian actions, in this case by rescuing children, for which please approve the opening during the holidays, the gates of the military high schools for the boys from the districts affected by the armed conflict in the Republic of Moldova. Saving lives these children will have a deep echo in the hearts of Romanians in Romania and The Republic of Moldova, as well as in the international public opinion “. At the call of the Bucharest-Chisinau Cultural Society, the Minister of Defense responds positively, through Major General Constantin Anghel, Inspector General of military education. To the joint action of the Cultural Society Bucharest - Chisinau and the Ministry of National Defense, is associated with high efficiency, the Alpha and Brotherhood trade union confederations, so that thousands of children will be saved, coming to Romania (the above are taken from the article The children from Bessarabia need the help of the Romanians in the country, Irina Negrea, in the "Cotidianul" of July 15, 1992). As can be seen, the humanitarian activity started by Elijah Ilașcu, in the weeks before his arrest, continued during detention. The famous and disturbing words spoken during the trial, taken over by all the news agencies, I love you, Romanian people !, included and his boundless joy, in connection with saving thousands of children from battlefields and refugee camps. It should be noted that the Romanian people (following the annexation of Eastern Romania by the USSR, by application of the Ribbentrop-Molotov pact), today, lives in three

countries, in Romania, in the Republic of Moldova (constituted on a part of the annexed territory) and in Ukraine, which, by dismembering the USSR, was left with the other part of the annexed territory, northern Bukovina, southern Bessarabia and Snake Island. In the The Paris Peace Treaty of 1947, the USSR imposed the wording that border between the USSR and Romania stabilized according to the 1940 agreement such an "agreement" did not exist, in 1940 the USSR annexed, following ultimatum, the eastern part of Romania, according to the Pact between Germany Nazi and the USSR. That Moscow, in 1947, tried to cover, by word of mouth agreement, the truth that he annexed, by dictation, the East of Romania, is obvious. Only in this way, in fact, did he recognize that the 1947 border, between Romania and the USSR, is the one imposed by the USSR, through the Ribbentrop Pact Molotov, in 1940. In other words, the consequences of the application of the Pact Ribbentrop-Molotov are co-signed in the very text of the Treaty of Paris, from 1947. Now, fifty years later, Russia and Ukraine are the "guarantors" of peace Republic of Moldova, of the "agreements" between Chisinau and Tiraspol. After all, it is it is about continuing some diversions against the Romanian people. Russia and Ukraine is the guarantor of the agreement between the officials of the Republic of Moldova and "Officials" from Transnistria (Tiraspol), through which Transnistria, in the case of the Republic of Moldova with Romania, to refuse to integrate in Romania Only Moscow imposed the inclusion in Transnistria (overseas territory) Dniester, east of the Dniester) and the town of Tighina, west of the Dniester, eastern Romania, annexed by the USSR. Through these "agreements" action is taken against the territorial integrity of the Republic of Moldova and against the process natural reunification of Romania, peacefully, by consensus. Through the imprisonment of Ilie Ilascu, a citizen of the Republic of Moldova, Moscow is putting pressure on the Romanian people, in a cynical way. Through the arrest of Ilie Ilascu was given a warning for all Romanians in The Republic of Moldova, which is naturally evolving towards reintegration into Romania. They are the sons of the Romanian people, abusively separated from their brothers, by Moscow, which drew a border inside Romania. By arresting and sentencing Ilie Ilascu to death, a political terror against Romanians in the Republic of Moldova. The 14th Army also find in this republic the same KGB surveillance structures territorial. But the voice of truth cannot be silenced. Moscow they must learn a different behavior towards peoples. Now he has the possibility to bring a small moral reparation to the Romanian people, acting for the release of Ilie Ilascu. There is accurate information that officials in Tiraspol in some treatments and methods of terror, typical of communist prisons, continues to compile files with "statements" of self-blame from the part of Ilie Ilascu. In this way the destruction of the personality is pursued

to Ilie Ilașcu. Its irreparable disease is also possible. defiance of the international public opinion, has been arrested, convicted and is being held as during communist trials and prisons. Please, gentlemen, President, act for the release of Ilașcu. His imprisonment is a defiance of human freedom, a defiance of human rights. You have to prove to those who chose you, as well international public opinion, that humanity can not tolerate anyone such injustices.

On behalf of the Deceneu Foundation and the Bucharest Cultural Societies - Chisinau, the signatory of these lines traveled to Australia last year, where, in order to release Ilie Ilașcu, he addressed in writing to Mr. John Howard, Prime Minister, Alexander Downer, Foreign Minister, Kim Beazly, Leader of the Opposition, Hon Halverston, President of Parliament, Mrs. Margaret Reid, President of the Senate and Cardinal Edward Clancy, Archbishop of Sydney. Margaret Reid, worried about fate to the deputy Ilie Ilașcu, forwarded the documentation in connection with him, Mr. Clyde Holding, Member of the Australian Parliament and President of Clyde Holding Committee on Human Rights. The Catholic Church in Australia, through Cardinal Edward Clancy, noting that Ilie Ilașcu is the victim of a great injustices, expressed the hope that it, through an effort internationally, it would be possible to return to the family.

Also from Australia I submitted to King Michael the same documentation and request. I found the motivation for this approach in Her Majesty's own words "You want to keep Transylvania within the country, fight for Bessarabia, for Bucovina and Herţa".

### **Romania**

When I returned to the country, I found, with pain, that for a massive year the media has been absent from updating and supporting the battle for the release of Ilie Ilaşcu and his group, which favored passivity Romanian diplomacy, which has at hand, let us mention, the over one hundred of embassy. Ilie Ilaşcu is not forgotten in political circles abroad. After as can be seen, in this case, Romania benefits from all the support. Our image, on the outside, is quite blurred, due to the absence a strategy for the re internationalization of this case. Parliament's appeal for the release of Ilie Ilaşcu, launched a few years ago, produced a strong impact, but was not fruitful through diplomatic channels. Lack today's parliamentarians, the coalition parties, from this sign of respect towards the Romanian people, it will not remain without consequences Thank you to Free Romania, which, through the Aldine supplement, offered usa page, on March 27 and a good place, as an icon, on May 1, to brings back the tearful face of Ilie Ilaşcu. defying, ignoring the rulers of Moscow (Not only in 1990, but also in the following years), which were waiting for them to sign the agreement for education in the Romanian language, for all Romanians. They knowingly ignored their interests people Romanian. The then foreign minister was Mr. Adrian Nastase. In 1990, Adrian Năstase was one of the emerging leaders of FSN. He was installed Minister of Foreign Affairs in the Government of Petre Roman at the end of June 1990, to two after mining.

The text of the agreement signed by the two Romanian dignitaries is identical. Textbooks for teaching the Romanian language in schools with teaching in the Romanian language from the Russian Federation ... How to teach the Romanian language in schools that do not exist !? The government of the Russian Federation agreed, in principle, to the establishment of Romanian education throughout the Russian Federation, since 1990 (See the film Conversations in Moscow, Cultural Society Bucharest-Chisinau-Conversation transcript). For the initialling of the agreement were expected to Moscow Prime Minister Petre Roman and President Ion Iliescu. They don't went to Moscow to sign such an agreement with The President of the Russian Federation and the Prime Minister (Boris Yeltsin, in 1990, President of the Supreme Soviet of the RSFSR, since 1991, The President Russian Federation). They were expected in 1990, 1991, 1992. In 1993 The Romanian Government has the initiative of the agreement whose program is signed by to Cristian Diaconescu, Secretary of State and Mihai Răzvan Ungureanu, Minister of Foreign Affairs. The practice of

setting up classes, schools, for sons diplomats, along with them learning some children, of some compatriots, It is large Found on plan international.

Ion Iliescu and Petre Roman could have made the Union, but they did not To know and not to tell the truth means complicity with those who can be Accused of tall betrayal of the country. Those who want to do politics, to give up such activity, if they do not have as a target, in an intelligent and courageous way, the Reunification of Romania. Those through who acted against the Reunification of Romania, it would not be better born, and if they live, let them live only to correct what it is insurmountable, neither in the world here, nor in the world beyond, a ancestors. So help us God! Petru Roman, prime minister in 1990, after a few years, declared that he would be could make the Union of the Republic of Moldova with Romania. Yes, through Petre Roman and Ion Iliescu The union would have been a fulfilled fact. The evil done by his government and to President Ion Iliescu, vertically and horizontally, with everyone factors of action, can not be overlooked. The unification of the Romanians in a single state was done by themselves, the empires being put on the accomplished fact. The KGB hats in Romania don't even have one dared such a thing, towards the imperialists in Moscow, both in their conversations with the representatives of the USSR Embassy in Romania, as well as in Chisinau and Moscow. On the contrary. They infiltrated, annexed and hijacked the Flower Bridge from a new Alba-Iulia, given that Romanians from all parts of Romania they had been notified and had come willingly and passed with a rush of unrestrained in Bessarabia. A real Plebiscite. Alba-Iulia 1990. We are addressing first of all the young generations, who are being lied to and manipulated by wolf shepherds. Romania's destinies enter into responsibility of young people. The Petre Roman government and President Ion Iliescu have blocked The reunification of Romania. The position of the Petre Roman Government was expressed public, unequivocally, by the Minister of Foreign Affairs Sergiu Celac: "The Minister of Foreign Affairs Romania, then told FRANCE PRESS that the Bridge of flowers is a particular initiative. I mean, it's Gheorghe Gavrilă Copil's problem and that's it? Shocking opinion from a member of the to the government! "(See the title Pure KGB fiddler, from the book Society Cultural Center Bucharest-Chisinau)

Colonel Victor Crăciun, in agreement with the President of Romania, Ion Iliescu, through specific professional methods-infiltration, annexation, diversion- a attached Flower Bridge. Victor Crăciun also set up his home in May many comrades from the USSR Embassy in Romania (spies, high officers?), the annulment of the possibilities of the Reunification of Romania. The result of the meeting between Ion Iliescu and Victor Crăciun ended with Victor's departure

Christmas in Chisinau, at the First Secretary of the Communist Party of Moldova

,  
Petru Lucinschi, general in the USSR. His, Victor Crăciun was the protégé of Moscow. The protection enjoyed by comrade Ion Iliescu is well known. Colonel Victor Crăciun was received by President Ion Iliescu, in any circumstances, being instructed by him in connection with the Flower Bridge and, of course, was warned, in case of failure, to and take full responsibility. Victor Crăciun was also trained by comrades at the USSR Embassy. As received by the President Romania, Ion Iliescu, was the same by his colleagues at the Embassy USSR. It is confirmed that those from Bucharest were installed at the helm Romania by Moscow and behaved like Muscovites before December 1989 in the care of Moscow. We have a few in mind characters who manifested themselves, in sight, in public life. It requires a legitimate question, how else are they protected for their activity, seen by the entire Romanian people, against the Romanian economy and finances, against the Reunification of Romania? There are still pro-Russian secret forces today, hidden in the structures of Romanian institutions, which protect themselves the leaders? Let's face it, we don't say about anyone that he was or he would have been an agent of Moscow, but that they acted against Reunification

We will write a few more words about another senior officer specialized in infiltration, annexation and diversion, Valentin Manu Iosifescu, acting in sync with Victor Crăciun, but after we continue with those before. A million people had prepared to cross the Prut at the call and organization of the Bucharest-Chisinau Cultural Society. And they passed him! Radio,

Television in Romania and the Republic of Moldova, in these circumstances, was

totally under the control of the KGB (NKVD), and Victor Crăciun had the role as a spokesman for the anti-unionists. He had nowhere to go in these circumstances also spoke of the Union, that it will take place sometime in the future.

The waves of Romanians crossing the Prut could not hear the words to him ... They were crossing the eastern bank of the Prut, at home, in Romania eternal, as they were at home west of the Prut. The Romanians had succeeded in the Union

according to the tradition of their history. If in Alba Iulia they voted for the Union of Transylvania with Romania over one hundred thousand delegates from all over Transylvania, the border

The USSR, imposed by armed force inside Romania, on the Prut River, was passed by over one million Romanians from all over Romania, in greeting them coming wave after wave of Romanians from the Republic Moldova and the Romanian territories included by Moscow, temporarily, in Soviet Socialist Republic of Ukraine. At this Alba Iulia from 1990 were decisively involved the anti-union leaders, shaking the unionists in Chisinau, who saw themselves betrayed. Unfortunately, the political opposition in Romania has no excuse for being absent from this historical event.

Ribbentrop-Molotov Treaty - annexation of the eastern part of Romania, of the eastern part of Poland, the annexation of Finland and the Countries Baltic.

Mikhail Gorbachev will recognize the independence of both countries Baltic- Estonia, Latvia and Lithuania, as well as Ukraine. Mikhail Gorbachev, through the recognition of the independence of the Baltic States, in fact, began the liquidation the consequences of the Ribbentrop-Molotov Treaty. Only comrades in Romania oppose the liquidation of the consequences of the Ribbentrop-Molotov Treaty seriously! Mihail Eminescu, considering Bessarabia, expressed the truth that a right it is lost only by the formal consent to lose it. The anti-union activity of the decision makers in Bucharest was below all expectations, producing a road with blockages for the Union in Chisinau, and in Bucharest strengthening the guilt towards the tragedy of the political evolution from Chisinau.

<https://mariusmioc.wordpress.com/2009/09/01/marea-adunarea-nationala-de-la-chisinau-video/>

The unionist movement in Chisinau continues after the Flower Bridge, with intensity. The pain of betrayal in Bucharest will be felt in Chisinau, but the unionist movement is unstoppable. The international conference took place on June 26-28, 1991 in Chisinau "The Ribbentrop-Molotov Pact and its Consequences for Bessarabia". From the words of President Mircea Snegur: "The Soviet occupation of Bessarabia and Northern Bukovina on June 28, 1940 was a result of the agreement between two totalitarian regimes that had as consequence of our isolation from the civilized and progressive world. Nine Europe, democratic, said Mircea Snegur, cannot exist without liquidation of the consequences of World War II, especially in on south-eastern Europe and the Baltic States "

(<http://www.europalibera.org/content/article/24248708.html> )

In the Republic of Moldova, high-class unionists acted, and in Bucharest anti-union politicians. In Chisinau, today, there are still large unionists. In passing, I mention that on January 15, 2016, an analyst, at a television station in Bucharest, in connection with today's obstacles, for the unionists from Chisinau, invoked the presence of the XIV Army. Which army? Was once, when he had troops positioned from the Baltic Sea to the Sea Black in the Baltic States and Ukraine. The anti-unionists in Bucharest, from 1991,1992, are trying to justify anti-unionism by invoking the Fourteenth Army, which had its own neighborhood General Tiraspol. Only this army was falling apart. On June 16 1990, the Parliament of Ukraine adopted the Declaration of State Sovereignty a Ukraine. In 1991 the Baltic States and Ukraine became independent.

From 1992 General Alexandru Lebed became the commander of this army. Who do you think met the general as many times as he wanted, over a coffee, at a vodka? Victor Christmas. He talked about these meetings, without details, but he knew that it had a blocking effect on the unionist leaders in Chisinau. In the In conclusion, we consider that the years 1990 and 1991 were favorable years for Union.

A blow to the Union for the Territorial Reunification of Romania

- Manu [Iosipescu] Valentin-1991

Union for the Territorial Reunification of Romania

Let's go back to 1991. Then, after the intense public activities in 1990 we had managed to bundle almost all the unionist associations with headquarters in Bucharest and some parties in the Union for Reunification Territorial of Romania. The governing bodies were elected. A simple one followed

formality. The election was attended by the press. He had announced the establishment of the Union. A

an article appeared in almost half a page of the newspaper (February 1991).

Mr. Manu Valentin, scientific researcher at the Institute of Atomic Physics, among us for two or three months, he was proposed and voted as a leading member

(One chairman, one vice-chairman and three members were elected). Mr. Manu

Valentin only before submitting the minutes of the constitution to the court, he objected, threatening to protest in the courtroom if he testified the minutes. Why didn't he say anything before? Question that did not

never answered. It would have been easy to propose and choose someone else. Those proposed, When asked if they wanted to be part of the leadership, some said no the proposals were not put to the vote. He agreed to be elected. Of what the? It should be noted that the General Assembly was held in Revolution Square, being formed by all participants in two rallies, on dates different, close, so everything went well and information, the second rally ending with the voting of those proposed. That's right

there came to be no political force capable of opposing Mr. Emil Constantinescu and company, so as not to issue the Molotov-Ribbentrop Pact from the history of Romania. Union for the Territorial Reunification of Romania a

was well received in the political world, signing with the National Party Christian Democrat, National Liberal Party, Social Democratic Party, Declaration of Romanian parties, organizations, associations and the signatories of this declaration in connection with the intention of the USSR to organize a referendum in the Republic of Moldova on March 17, 1991. The initiative and the working text belong to the Bucharest-Chisinau Cultural Society.

On behalf of PNTCD, he was delegated to this working meeting (At the Museum municipal history), the deputy Ion Lup, who also signed the declaration. The meeting ended with the signing of the Declaration by the twenty-two five representatives of parties, associations and trade unions (See Justice in 13-03-1991). Excerpt from the Cultural Society - Bucharest-Chisinau, p. 42-43.

N.n. A heavy blow was inflicted on both the unionist movement and the forces opposition politicians, who, as can be seen, were associated in a fundamental problem for the Romanian people. Manu Valentin had infiltrated in the unionist movement and thus in the opposition.

URTR MINUTES - see All Scans, p.128

### **Unionist associations forum-Victor Crăciun, Manu Valentin**

In the following years, control of all organizations is planned unionists, who are invited to be part of a Forum, to have in headed, as president, by Mr. Victor Crăciun. The assembly of constitution... But, the Forum had no life, disappeared... Who was the man number one, who coordinated and fought hard to gather unionist organizations under the control of Colonel Victor Crăciun? No one other than another loyal of the rulers installed at the head of Romania by coup d'etat, Colonel Valentin Iosifescu Manu (now what degree will it be having?), with training at Dubna-nuclear research center of URSS.

Which nuclear researcher Manu Valentin? Qualification his basic, infiltration, information, diversion, with this preparation of acted against the unionist movement and the opposition in Romania, like Victor Crăciun. Anti-Romanianism.

### **A blow to the Bucharest-Chisinau Cultural Society**

Manu [Iosipescu] Valentin- 2004

In 2004, the general assembly for elections was held in Bucharest-Chisinau Cultural Society. In recent years Manu Valentin has he had struggled to be at the forefront of the unionist movement, to participate in the activities of course, thus finding out as much of the association 's connections as possible from Romania, northern Bukovina and Bessarabia, no secret, everything was in within public activities. Neither did Victor Crăciun when he wanted to join the activities of the Bucharest-Chisinau Cultural Society and neither Manu Valentin when he expressed his desire to work with us in the Cultural Society Bucharest-Chisinau, were neither refused nor hindered in any way. May much, Victor Crăciun was received to associate with the Cultural League at a activity of national and international resonance, and Mr. Manu Valentin did not was prevented, on the contrary, from being Vice - President of the Union for Territorial Reunification of Romania and no vice-president of the Society Cultural Bucharest-Chisinau, following the 2004 elections. Only as The Union for the Territorial Reunification of Romania, after it would have been officially registered in court, would have become the unionist political force, but a received the blow just before registration in court, the same thing happened happened with the Bucharest-Chisinau Cultural Society, after these elections. University professors were elected in the leadership-Ilie Bădescu, Ion Coja and other prominent personalities of public life, that the Society Bucharest-Chisinau Cultural Center had the chance to become the unionist force again as can be seen, the only truly unionist force to sustain the problem of the Reunification of Romania is active. Manu Valentin also vice president. From Victor Crăciun and Manu Valentin about what it can be words? Anti-Romanianism. Manu Valentin insisted, insisted not to put to vote the statute specifying the Reunification of Romania, as the purpose of Bucharest-Chisinau Cultural Society. To break the deadlock, Gheorghe Gavrilă Copil proposed another formulation: the Cultural Society Bucharest-Chisinau carries out its activity according to the integrative spirit of country of all actions that culminated in the Union of December 1, 1918 and immediately proposed to be voted on. It was voted unanimously. In the debates in this election assembly Mr. Manu V Manu Valentin asks the general assembly to appoint him with the legalization of the decisionsit needed legalization considering that some simple

changes to the statute. So official registration. He took the minutes of the meeting general, the stamp, but without realizing the copies of the documents from these elections-we all thought that out of carelessness and gone was ... We all he lied that he was bringing them, that in court ... Why in court, only the Society is it legally constituted, with the necessary act from the court ?! Now it is it is a simple additional act to the notary that is obtained on the same day.

E about the registration of new changes at the notary. That's better, at court insists he ... A month passes, two passes, three passes, five passes, others pass, the same questions, the same answer ... It was clear. The game to him under cover, in the unionist movement it had ended ... After the blow applied to the Bucharest-Chisinau Cultural Society, Mr. Manu Valentin becomes the president of the Cultural Association Pro Bessarabia and Bucovina ... Others had to to be at the head of the unionist movement. We, the unionists, had to be destabilized. How unionists and what results they had, it is possible notes that, although the Cultural League for the Unity of Romanians Everywhere - President Victor Crăciun - has benefited from billions of lei for congresses, in which high state dignitaries also participated. Neither Pro Bessarabia and Bucovinait was not without funding, either from the state or from other sources. Of course not we deny some specific activities to Bessarabia and Bukovina. The problem is the question is another, what was chosen by the unionist movement ?! Five months pass, more months pass. A new announcement in the press, new elections at the Bucharest-Chisinau Cultural Society, in 2005, with new elected officials, the young generation, with a new stamp. But people of national resonance they were scattered, they did not have the legal framework, the acts of the general assembly and the act additionally from the notary, to carry out its activity. Manu Valentin infiltrates the Pro Bessarabia and Bucovina Association Glad that the Society Bucharest-Chisinau cultural center has ceased activity, turns its attention to the Cultural Association Pro Bessarabia and Bucovina and soon becomes its president assemblies, manages to remove from the statute of this association the purpose of the Union, the purpose The reunification of Romania. He resigns. Even today this association, through status, does not have the purpose of Union of the Republic of Moldova with Romania, which does not it means that it has no exceptional activities. Valentin Manu Iosifescu: I stated that the main objective of Pro Bessarabia is the European integration of the Republic of Moldova in the EU. Victor Crăciun, trying to apologize, wraps himself, without escaping, in a spider web.

a) -2007.

Sindard Association. On March 27, 2007, at the Mogosoiaia Palace, a the event dedicated to the 89th anniversary of the Union took place

Bessarabia with the Motherland, organized by prof. Eng. Drd. Simion Constantin together with the General Council of Bucharest. Victor Căciun takes the word stating that he has the paternity of the Flower Bridge. Argument brought: The Russian general and Victor Crăciun cut the ribbon of the Flower Bridge. And he said in continued Victor Crăciun that there is someone who does not understand that the Union in 1990 was not possible because of The great red army! The mouth of the sinner the truth speaks! He had thus confirmed that he opposed the Reunification of Romania. That someone, being in the hall, Gheorghe Gavrilă Copil, believed and believes that Reunification was possible in 1990. And not only him...

b) March 26, 2008

Excerpts from the website of the Cultural League for Unity Romanians Everywhere since March 26, 2008 Victor Crăciun: "At the initiative of the Romanian side, together with Ion Ungureanu, the Minister of Culture from Chisinau, I proposed to the new secretary General of the Communist Party of Moldova, Petru Lucinschi, achievement The Prut Flower Bridge to mark a moment of farewell to brothers of national sensitivity and spiritual union". Gheorghe Gavrilă Copil expresses his opinion, in short, on the quotes reproduced: Victor Crăciun infiltrated a few days before the crossing Prut and acted for the annexation and diversion of the Flower Bridge, at Bucharest cooperating with officials (KGB officers) of the USSR Embassy, as well with senior KGB officers from Chisinau. That Mr. Victor Crăciun and Minister Ion Ungureanu, went to President Petru Lucinschi-R.S.S.Moldovenească was then part of USSR, and President Petru Lucinschi... The party leaders were subordinate The KGB, as those in Romania were the commanders of security... What functions had he had and did he have Petru Lucinschi? Deputy Head of Section-Central Committee of Communist Party of the Soviet Union, Second Secretary of the CC of the CP from Tajikistan, President of the CP of the Moldovan SSR, Press Secretary of the CC, member of the Political Bureau of the CC of the CPSU, President of the SSR Moldova... the inhabitants of the two banks of the Prut... The secret services of Bucharest, -those of which Colonel Victor Crăciun was part (today what degree has?), together with those of the USSR, had moved against the unionist movement. Victor Crăciun takes the first step by inviting him home employees of the Soviet Embassy in Bucharest. V.C: "History must be recorded exactly: Petru Lucinschi gave him a phone call to Mikhail Gorbachev (he might not find it!) and the creator of the new one Moscow politicians found out about our proposal and replied: This is a matter for you what you do with the Romanians in the Prut (s.n). was supposed to be interpreted as an adherence to the idea, which is why I was going to convince myself during my visit to Moscow when, together with Emil Loteanu, I had

discussions with high dignitaries at Kremlin ". G.G.C: The documentation leaves no doubt. Our activity in the connection with the future Flower Bridge was from December 1989, from the time Romanian Revolution (coup d'etat!).

### **Mikhail Gorbachev asked for information about Copil Gavrilă by Petru Lucinschi...**

The appearance of Colonel Victor Crăciun was to annex the Flower Bridge and divert it from its unifying country. "This is your job with the Romanians from the Prut." Michael Gorbachev knew that we were on the path to unification, as it was the unification of Germany. Involvement of the obedient Victor Crăciun et. Company they hijacked the golden dream of the Romanian people. V.C: "In this way, on May 6 1990 saw the first Flower Bridge, about which many today can afford everything the kind of opinions and judgments, considering him either ephemeral and useless, or arrogant paternity rights over this manifestation. We understand their smallness, petty interests or sickly pride, but we must say one more since that river of people who wanted to erase the most painful The border, covering it, symbolically, with flowers, was a historical act of an overwhelming importance in Romanian-Romanian relations and we do not want to mimic a fake modesty, we assume that success, no matter how hard we try minimize. But let's go back to what history has to say and forget about reluctant and sold out ".

G.G.C: Yes, "that river of people wanted to erase the most painful border".

### **What Victor Crăciun, the "organizer" said**

Mr. Victor Crăciun and the representatives of the government from Chisinau have had access to television. Naturally, you will say. But, the Flower Bridge had fallen on other hands ... And the television in Bucharest and Chisinau was under control Muscovites.

1) Victor Crăciun on TV channels (Then and after): - The union will take place over a number of years. Notice the difference between the Reunifying Spirit of so far, the move, by Victor Crăciun, of the ideal of the activity in the future. Moscow, she breathed a sigh of relief.

2) Victor Crăciun to the attention of the TASS Agency, referring to the action The flower bridge: "Victor Crăciun ... showed that she is not pursuing any goal political. Now that renewal processes are taking place in Romania and the USSR, many of the obstacles to communication between the inhabitants disappear border areas in the two countries. "That's what a KGB officer would have said. Soviet. The reunification of the Country is a political act! And, for his name's sake God, the Romanian Revolution did not act to remove the obstacles

of at the border between Romania and the USSR! Not to mention that a small barter, a small trade is also practiced across the borders of other countries. This is about a border inside Romania. In this news, of the TASS Agency, it is possible he noticed, however, a certain caution, writing about Victor Crăciun, as if one of the organizers "(op.cit. p.22). Anyone who wants to know the truth and estimate what happened is invited to read this documentary book, another will remain prey to manipulation, which was unfortunately practiced on a large scale in Romania. But until this reading to be mindful of the following.

At that time, the government of Petre Roman was at the head of the country, and as president at Romania, Ion Iliescu, installed at the head of Romania through the competition of forces of the USSR, in collaboration with the "Romanian" KGB members. When we say Ion We also call Iliescu the interior minister, because of the presidential authority. The Petre Roman government was anti-union. Statement by the Minister of Foreign Affairs from Bucharest since the days of the Flower Bridge leaves no doubt. But and Petru Roman's statement, after a few years, which shows the regret that he did not commit himself to the reunification of Romania, that he could have made the Union. Victor Crăciun acted according to the obedience of the Bucharest government. Without saying things by name, we would be partakers of the darkest government anti-Romanian. Let us consider only the possibility of Reunification Romania and that would be enough! As for Victor Crăciun's words, "let's forget about the reluctant and sold", is not right this time either. It's about high treason country, anti-Romanianism, another labeling of an opposing government. The reunification of the country over which he governs did not exist, both for the rulers, as well as for all those who played the game of this government, annexing and hijacking the Flower Bridge. They did not act in the interest of the Romanian Nation! Petre Roman did not have the attitude of prime minister of Romania either for schooling of students from Bessarabia to Romania, limiting the number of children who they were to be educated in Romania, although the requests for this schooling there were many, too, in that context, unrestricted. And Petre Roman and Ion Iliescu evaded the protection of the Romanian minority in the USSR. The Moscow government had agreed to establish language education Romanian for the Romanian minority in the USSR. President Ion Iliescu and Prime Minister Petre Roman did not take this opportunity. Anti-Romanianism. The pages of this book leave no doubt in these either domain.

V.C: "Before the symbolic ribbon was cut by the signatory of these ranks with General Stutz, commander of the Soviet army at Baltic to Odessa".

G.G.C: The Romanian army had noticed the great historical chance of Reunification Romania I must admit that the Romanian army officers reacted with dignity, without hesitation, to the Prut march of our tears to him cover with flowers. There is no doubt that at the top, the FSN is not controlled in the entire Romanian army. The battle to remove the KGB general from the head of the army, led by the democratic forces within the army (CADA), he had achieved his goal. It has been removed. Together with your border officers of the Romanian army, we established all the points for crossing the border, where, the Romanian border guards took all the necessary measures! If from the height of Romania's political leadership, it was shaking and shaking they watched with horror the preparations and the inevitable crossing of this frontier, drawn by the Soviets inside Romania, the Romanian border army was placed immediately, with brotherhood and professionalism, at the disposal of the national will. And the border army is part of a unitary whole, the Romanian Army. I had meetings with senior officers of the Romanian Army, in border towns, meetings at military units, then in public, for the good organization of action along the entire border, where the USSR army was also deployed. To the public meeting in Iasi, on behalf of the Popular Front of Moldova, have Mr. Iurie Roșca and Mr. Sergiu Burcă participated ". (op. cit. p.14-15)

At Ungheni-crossing point in Bessarabia, under his coordination Gheorghe Gavrilă Child - the generals and colonies of the USSR who were waiting for us in balcony as in the grandstand on the Red Square in Moscow during the big parades and Bolshevik holidays, disappeared suddenly, at the appearance of the Romanians who they were crossing the Prut. Gheorghe Gavrilă Copil had mobilized Romanians from all sides Romania for a new Alba Iulia this time in Bessarabia. But where the KAG members had gathered in Albita, what happened? Instead of Alba Iulia it is cut the ribbon of the Flower Bridge, for visiting the Romanians from Bessarabia. All the audio-visual means in Romania had come under the rigorous control of To the government and were made available only to the KGB members from Albita - that's how it was postpone the idea of union-documentation leaves no doubt. In the way this Flower Bridge enters its final stage under the control of the KGB But there is something else - the secret services of the USSR accounted for posterity the collaboration-complicity of Victor Crăciun against The reunification of Romania, so that when the archives are opened, the researchers will have at their disposal the informative notes of the respective ones services...

**Motherland, Romania, is expecting her children from Bessarabia and northern Bukovina**

A clarification is required. In the Appeal of the Bucharest-Chisinau Cultural Society, a mistake was made, Northern Bucovina. There are no two Bukovina, but only one, northern Bukovina being the captive part, in Ukraine. It's my fault, I wrote Northern Bukovina, instead of Northern Bukovina.

**GOOD GOD GAVE US ANOTHER POSSIBILITY**

God has given us another opportunity to continue in the spirit

country unifier of action Prut of our tears to cover it with

flowers (Flower Bridge). I was in the Cabinet of Prime Minister Mircea Druc,

The Prime Minister, the undersigned and my good friend, Prof. Mihai Avădanei.

On the shoulders of Prime Minister Mircea Druc were pressing big problems,

which he had to start solving them, but we accept that the economic one was

urgent and special importance. It is also recognizable that Romanians

patriots who came to the leadership of R. Modovei in 1990, did not have any

exercise governmental, others were used by the USSR. Mr. Mircea Druc, in

Our conversations testified to their intention to form a police force after

the model of the Italian carabinieri. Personally, I don't like this idea, but I have

silent, thinking that the model of the Romanian police would have been to be followed, having unifying meaning. He also expressed his desire to make the Republic of Moldova a Dacia Felix. Again I was silent, Dacia Felix being a name for the occupied area of Dacia, occupied by the Romans. She was really happy, but for the Romans. For Getodaci it was a period of terrible suffering. Not me anymore I remember who brought up the economic issues, the trade outside the Republic of Moldova, in all probability also Mr. Mircea Druc. Suddenly, we all lived in solidarity to solve this problem. I proposed economic ties with Japan. There was silence apart. Mr. Gheorghe Gavrilă Copil, said the Prime Minister, how to achieve such a possibility?! That would be great, he continued. We have people for that. You opened this discussion. You can do something in this meaning? Yes, Prime Minister. I have an acquaintance in Bucharest, he lived, studied in Japan, has good connections with some personalities there. He loves the Romanian Nation with all his heart. Would he come to Chisinau to help us? Certainly, Mr. Prime Minister! There was silence again. Mircea Druc: Mr. Gheorghe Gavrilă Child, I make him a minister in the government in Chisinau, with economic problems, with Japan. And silence. The prime minister has risen from the office, he took a few steps, then, barely speaking, said: You can't, you can't may be. What's the matter, said the undersigned. I have to ask for approval Moscow, personally of Mr. Mikhail Gorbachev. Simple, get your hands on the phone. Simple?! ... No, I'm calling in vain, an adviser answers me ... Mr. Prime Minister, get on the phone and call, ask to be contacted with Mr. Mikhail Gorbachev! He put his hand on the phone. I heard him say, amazed: Housewife Mikhail Gorbachev?! Mikhail Gorbachev was on the phone. The response was favorable, encouraging, clear. To come, to make connections economic relations with Japan and others, but only deal with problems economic. The Prime Minister's face shone. Mr. Gheorghe Gavrilă Copil, let's not waste any more time. Keep your word. I'm going to Bucharest. Not, stay here. Mr. Mihai Avădanei, courier from me. I was in front Our Prime Minister was sending a courier from him. Mihai Avădanei, in Bucharest, on the phone, from a PNT-CD office. Howdy Gavrilă, the person answered the requests, tomorrow we are in Chisinau. Second One day, on the phone, he announces that they will arrive tomorrow. Mihai Avădanei was three days old in his extremely important mission. Let us know again, let's wait. A the fourth day announces that he is coming alone, but the guest will arrive, by the way sure. I will explain to you after I arrive in Chisinau. That's how it went week. I waited another week. It was clear he wouldn't come ... The train with the chance of history doesn't stay long in the station ... Autumn, when I have it met our Bucharestian, he answered me in an astonishing way: Autumn is a season favorable to cultural activities. We would be a man of character

answer that he does not come to Chisinau, that he cannot. We would have found another man, Romania and we would have joined the Chisinau Government in time. How many other wounds and Prime Minister Mircea Druc, from Bucharest, would not have received the pain, but led them in silence, hoping that Bucharest, the capital of all Romanians, he knows what he is doing and the Romanians from the east of the Prut will find solace in the Motherland.

**Can anyone deny it ?!**

**One can also deny that MI and SRI were not involved in the activities anti-Romanian (against the Reunification of the Country)? Deciding and operative factors and their descendants remained in the system? We don't know any documents public for removal from the Ministry of Interior, from the Romanian Service of information, from the Foreign Ministry of Information, of some groups anti-Romanian. We do not know the Documents in the Archives, starting with President Ion Iliescu and Prime Minister Petre Roman, in connection with anti-Romanian-anti-union activities. Not even in Parliament. Betrayal of country is not protected by any function.**

**I can be told that there were organisms that had to self-notice. The answer is the same, why didn't they notify each other? In the USSR, with Mikhail Gorbachev, he would have held senior political positions liability. They acted, therefore, through all the structures of state power, against the Reunification of Romania! But Mikhail Gorbachev has disappeared politically and the USSR ceased to exist, defending the Russian Federation in the place of the communist system, democracy, led by President Yeltsin. Bolshevik comrades in Romania, raised, fed, with rubles available, protected by the Communist Party (Bolshevik!) of the USSR, they were left without their Country, The USSR. What did they say? Where we are well, there is our country. oneour chance to have a country to support us is the USA, with the NATO Alliance. The USA is full of Bolsheviks, as they will be called, neo-Marxists, or so otherwise. In the USSR, with Romania, we would have been leaders together wit the Bolsheviks, with the neo-Marxists in the USA, would have turned the USA into a new one USSR. And great miracle, no opponent, they all hugged and caressed them the Americans.**

## **DOINA**

**by Mihai Eminescu**

**From the Dniester to the Tisza  
All the Romanians cried for me,  
That he can no longer cross  
So much foreignness  
From Hotin to the Sea  
The Muscals come on horseback,  
From the Sea to Hotin  
They hold our way**

And the Muscals and the Kalmyks  
Nor does the Dniester drown them  
Poor country, poor!  
From Boian to Cornu Luncii  
Jidoveşte-teaches babies  
And under the hand of a Jew  
They are Stefan's Romanians.  
That behind it still looks like crayfich  
His table is restless  
And he's a foreigner in his country.  
From Brasov to Abrud  
Alas, what I see and hear  
Mastering the cruel Hungarian  
And from Olt to Cris  
It is no longer clear  
The weight of the sighs  
In the shadow of strangers,  
If you didn't know what to do  
Poor Romanian, poor!  
From Turnu to Dorohoi  
Enemies are flowing  
And he sits down with us;  
And how I come by rail  
All the songs are gone  
All the birds are flying  
Black abroad  
Only the shadow of the thorn  
At the Christian's door  
Codrul moans and leaves  
And its springs are drying up  
Poor country, poor!  
Who brought us Jews?  
He hasn't seen a day in years  
And take out the raven's eyes  
Stay on the road like the blind  
Who brought us Greeks  
It wouldn't rot forever  
Who brought us Muscalii  
It would wipe out the fire of mourning  
To burn it, to burn it

Let the nation destroy him,  
And who was my mess  
And who was my mess  
It would dry his heart in him,  
How my enemies are drying you  
Poor country, poor!  
Stefan, Your Majesty,  
Leave Putna, don't stay,  
Leave it to the archimandrite  
All the care of the hermitage,  
Take care of the pits  
Report it to the priests  
Let the methanes keep beating,  
All day, all night,  
God bless you  
To save your people  
You rise from the grave  
To hear you sing from the horn  
And Moldova gathering  
Gathering your flags  
Let the nations marvel;  
If he blew his horn once  
You would gather all of Moldova  
If he called her twice  
They come and help the woods;  
If he called her a third time  
All enemies will perish  
Pay attention to the crows  
He's a hangman.  
Stefan, Your Majesty,  
Leave Putna, don't stay  
That the beds are waiting for you  
Let their tigers fly  
Call them molitvele  
As many as you look, as many as you were  
Captains of the Greeks  
Greeks and foreigners  
Dogs would eat their hearts  
If he blew his horn once  
You would gather all of Moldova

If he called her twice  
They come and help the woods;  
If he called her a third time  
All enemies will perish  
Pay attention to the crows  
He's a hangman.  
Stefan, Your Majesty,  
Leave Putna, don't stay  
That the beds are waiting for you  
Let their tigers fly  
Call them molitvele  
As many as you look, as many as you were  
Captains of the Greeks  
Greeks and foreigners  
Dogs would eat their hearts  
The desert country would eat them  
And the bastard people  
How you prey, how you dry  
Poor country, poor!

This variant of Doina, extremely little known today, is taken from the book Mihai Eminescu - poems printed during life, vol. III, notes and variants, critical edition edited by Perpessicius, with reproductions after manuscripts, Royal Foundation Publishing House, Bucharest, 1944.

It is extraordinary, it awakens deep hidden feelings, understandings of which you are afraid that only many have them. Eminescu is still contemporary with us. God rest his soul. oina lui Eminescu the authentic and uncensored version

Eminescu's "desires" lie in the power of Stefan's forests and resurrection,  
now holy and I don't know where we get the woods from. Or maybe because  
that the forests were wildly destroyed by both Romanians and foreigners?**

Stimate domnule preşedinte,

Luînd cunoştinţă din presă de apelul lansat către toate liceele ţării de Societatea culturală Bucureşti-Chişinău, vă comunicăm următoarele:

Liceul Pedagogic din Braşov se oferă să şcolarizeze două eleve de la Liceul Pedagogic din Chişinău, considerînd că acest străvechi centru de şcoală şi cultură românească care este oraşul nostru, va putea investi ceea ce are el mai valoros, uman şi profesional în copiii fraţilor noştri din Basarabia.

Dorim ca cele două eleve să fie din clasa a X-a a anului şcolar 1990-1991, deoarece elevele noastre cărora le aparţine iniţiativa sînt actuala clasă a IX-a.

Ne asumăm întreaga responsabilitate în ceea ce priveşte instrucţia, educaţia şi îngrijirea celor două eleve, atît faţă de colegii noştri din Chişinău, cît şi faţă de părinţii copiilor.

Elevelor respective li se va asigura din partea noastră cazarea la internat şi servirea mesei la cantina liceului.

Le aşteptăm cu toată dragostea şi cu deosebită emoţie.

Dacă este necesar, se poate discuta suplimentar cu noi (Ludaşen Petru - directorul liceului şi Oprina Iuliana - profesor şi diriginte al clasei), la telefon 921/42861 sau 921/14647.

La inițiativa Sindicatului ROMTEL din institu-

rea strîngerii unui fond lunar necesar acoperirii  
cheltuielilor de întreținere în internat a unui număr

catul ROMTEL al ICPTc, o va vira lunar liceului de

Suplimentar, doamna ing. Elena Stătescu, care în  
curînd va ieși la pensie, s-a obligat să asigure suma

Basarabia, are preferință pentru o fetiță, pe care să o  
ia la sfîrșitul săptămîinii, acasă, dînsa vorbind curent  
și limba rusă.

Am luat legătura cu dl. profesor Sandu Marin,

acordul dînsului, specificînd însă că nu poate asigura  
școlarizarea unui număr mai mare de 8 copii: cei 4 ai
