

To Mr. President, Vladimir Putin,

My name is Gheorghe Gavrilă Copil, the president of Bucharest-Kishinev Cultural Society and the editor of new electronics magazine, NOI DACII (www.noidacii.ro). I am from Romania, my beloved and so much oppressed homeland, but we will exceed the dramatic situation through which we Romanians live nowadays and will become Romania masters. Given the fact that the Russian Federation is heir to the USSR, we believe that Your Lordship may contribute to overcoming the consequences of the Ribbentrop-Molotov Pact, namely the annexation of the territories of Romania by the Soviet Union during the Second World War in 1944. It's about Bessarabia, northern Bukovina and Herta. In these territories, Moscow Soviet holocaust unleashed against the ethnic Romanians. We propose a first step, the unconditional withdrawal of the army from Bender, east of the Dniester, as Tighina (Bender), west of the river Dniester, was always in Bassarabia, now in Republic of Moldavia. It was included, abusive, by USSR, in Transnistria. Both the southern part of Bessarabia (to the Black Sea) and northern Bessarabia, part of the whole Bessarabia, now still joins Ukraine, the State of Moldavia from what Transnistria belongs, being constituted in Bessarabia. This repair of territory, the reintegration of Bender town in Bessarabia (Republic of Moldavia), will be a good signal on the political international turf, drawing attention to the next step, a declaration made clear: the USSR annexed Bessarabia, Northern Bukovina and Herta from Romania, and joined them to the Ukrainian Soviet Socialist Republic, temporarily. Russian Federation believes that relations between the Russian Federation and Romania and the European Union should rely on trust. Our proposals are the only authentic versions of trust. In today's geopolitical context, there is the insinuation that the Russian Federation may border directly with Romania, which would mean the annexation of southern Bessarabia, Moscow thus bordering with Transnistria and the Republic of Moldavia, and with Romania on the Prut River . We believe that Moscow will not fall into this trap. For the annexation of Romanian provinces are to blame Stalin and Hiler, the Soviet government and Nazi government, the USSR and Nazi Germany, these Romanian provinces being annexed by the USSR. Mr. Vladimir Putin, please be attentive not to sign in place of Stalin and Hitler, of the USSR and Nazi Germany, of Molotov and Ribbentrop, the reactivation of this Treaty by military means and also through diversion and armed conflict in Bessarabia and Republic of Moldavia. This treaty is one of the biggest crimes against humanity, the consequences carrying on ever since. Mr. President Vladimir Putin, Romania reunification is an inalienable right of Romania, as a first step being the Unification of Romania and Republic of Moldavia. Whether this union after the entering of Moldavia in the European Union, or union without the European Union. I believe that this union is a priority before the Republic of Moldavia fulfills the conditions of acceptance in the European Union. We know that you

oppose that Transnistria, as part of R. Moldavia, to unite with Romania. You want it to be part of the Russian Federation. Between Russia and Transnistria is Ukraine! Do you intend to prevent by any means the union of R. Moldavia and Romania? Militarily, or through internal diversion? We believe that these paths are not part of the actual plans of Moscow, which is why we make a proposal: the unconditional union of Republic of Modavia, and therefore of Transnistria, with Romania. In Transnistria the largest ethnic community is formed of Romanians. You know very well that Transnistria was annexed by Czarist Empire. In Transnistria, during the annexation, the vast majority of the population was made up of Romanian. A great statesman, in order to be respected and having his voice heard around the world, must remove the evil committed by his countrymen in the near or more distant past. Meditate, Mr. President Vladimir Putin, at the proposal and stabilization benefits of good neighborliness between the Russian Federation and Romania, the Russian Federation and the European Union.

All the best,
Cultural Society Bucharest- Kishinev
Gheorghe Gavrila Copil, President
